COLLEGE ACCESS CHALLENGE GRANT PROGRAM (CACGP)

I. PROGRAM OVERVIEW

Legislative Authority:

Title VII, Part E of Higher Education Act of 1965, as amended, 20 U.S.C. Section 1141

Official Documents Notification:

The official document governing this application is available electronically at the following Web site: ---

Purpose:

The College Access Challenge Grant Program (CACGP) is a formula grant program that is designed to foster partnerships among Federal, State and local government entities and philanthropic organizations to significantly increase the number of underrepresented students who enter and remain in postsecondary education. CACGP provides two-year grants to States to meet the needs of underrepresented students and families.

Eligibility:

The Governor of the State designates the State agency (i.e., a State agency with jurisdiction over higher education or another State agency) that is eligible to apply for a CACGP grant. Each State is eligible to receive one CACGP grant. In cases where a State fails to meet the matching requirement or fails to comply with other grant requirements, the Secretary shall reduce the amount of grant payment to the State proportionately and may award the proportionate reduction amount of the grant directly to a philanthropic organization.

Authorized Activities/Services:

- 1) Provide information to students and families on postsecondary education benefits, opportunities, planning and career preparation;
- 2) Provide information on financing options, including activities that promote financial literacy and debt management among students and families;
- 3) Conduct outreach activities for students who may be at risk of not enrolling in or completing college;
- 4) Assist students in completing the Free Application for Federal Student Aid (FAFSA);
- 5) Offer need based grant aid to students;
- 6) Implement professional development for guidance counselors at middle and secondary schools, and financial aid administrators and college admissions counselors at institutions

of higher education, to improve such individuals' capacity to assist students and parents with:

- a) Understanding:
 - Entrance requirements for admission to institutions of higher education, and
 - State eligibility requirements for Academic Competitiveness Grants or National SMART Grants;
 - b) Applying to institutions of higher education, applying for financial assistance and scholarships;
 - c) Activities that increase students' ability to successfully complete the coursework required for a postsecondary degree (including tutoring and mentoring); and
 - d) Activities to improve secondary school students' preparedness for postsecondary entrance examinations.
- 7) Repayment of student loans, student loan cancellation, or lowering of interest rates.
States are not allowed to use funds to promote any lender's loans.

II. PROGRAM REQUIREMENTS

Qualifying Students and Families:

States must make activities and services available to all qualifying students and families regardless of a) choice of postsecondary institution; b) type of student loan received; c) server of such loan; and d) student's academic performance. Students and families cannot be charged a fee to participate in activities and services. In the case of an activity providing grant aid, States cannot require students to meet any condition other than eligibility for Federal financial assistance under Title IV of the Higher Education Act of 1965.

Priority: Priority must be given to students and families who are living below the poverty line applicable to the individual's family size.

Sub-Grants to Non-Profit Organizations:

States may award sub-grants to one or more non-profit organizations, or partnerships of organizations, in the State to carry out the services and activities if the non-profit organization or partnership—

1. was in existence on or before September 27, 2007; and
2. is participating in activities and services related to increasing access to higher education.

Federal Share and Non-Federal Matching Requirement:

Federal funds may be used to pay for up to two thirds (2/3) of the cost of the activities and services provided as part of a College Access Challenge Grant. States are required to provide non-Federal funds equal to one third (1/3) of the costs of authorized activities and services. This non-Federal match may be met through cash or in-kind contributions and cannot be waived.

Matching contributions may be provided from State resources, contributions from private organizations, or both.

Documentation of matching contributions must contain adequate source documentation for the claimed cost sharing, provide clear valuation of in-kind matching, and provide support of cost-sharing by grant partners. Grantees are required to value in-kind contributions in accordance with relevant Office of Management and Budget (OMB) circulars and the Education Department General Administrative Regulations (EDGAR). In most cases, grantees must value in-kind contributions of facilities and equipment using depreciation rather than fair market value.

If a State fails to provide the full non-Federal share required, the Secretary will reduce the amount of the grant payment proportionately, and may award the proportionate reduction amount of the grant directly to a philanthropic organization.

Annual Performance Report Requirement:

States are required to provide an annual performance report that outlines the activities and services that were implemented during the performance period, the associated cost of each activity or service, the number and percentage of students that participated in such activities and services, and the total non-Federal matching contribution. This information will be used to determine if projects are achieving goals and objectives and if statutory and regulatory requirements are being satisfied. States can be determined to be temporarily ineligible to participate in CACGP if an annual performance report is not provided, or if substantial progress is not being made in meeting the goals of the grant.

Performance Indicators for the CACGP:

The CACGP will be measured against the following performance measures:

- 1) For States offering scholarship programs, the percentage increase in the proportion of high school seniors offered CACGP grants who enroll in college within a year after graduation.
- 2) For the portion of State projects offering services directly to secondary schools, the percentage increase in the proportion of high school senior program participants who complete a Free Application for Federal Student Aid (FAFSA).

The CACGP will also be measured against the following efficiency measure:

- 1) The decrease in the gap between the cost of the scholarship program per high school senior offered a CACGP grant and the cost per high school senior offered a CACG and enrolling in college within a year after graduation.
