

**SUPPORTING STATEMENT  
FOR PAPERWORK REDUCTION ACT SUBMISSION  
9000-0014, STATEMENT AND ACKNOWLEDGMENT, SF 1413**

**A. Justification.**

**1. Administrative requirements.** All executive agencies including the Department of Defense, use Standard Form 1413, Statement and Acknowledgment, in construction contracts that exceed \$2000 to obtain a statement from contractors and acknowledgement of subcontractors, that the proper labor clauses have been included in subcontracts. Department of Labor regulations at 29 CFR Subpart 5.6 require use of this form to enforce compliance with statutes such as the Davis-Bacon Act (40 U.S.C. 276a-276a-7), the Copeland Act (18 U.S.C. 874 and 40 U.S.C. 276c), and the Contract Work Hours and Safety Standards Act (40 U.S.C. 327 *et seq.*).

**2. Uses of information.** Contracting officers use this information to ascertain whether or not the contractors have included the proper clauses in subcontracts.

**3. Consideration of information technology.** We use improved information technology to the maximum extent practicable. Where both the Government agency and contractors are capable of electronic interchange, the contractors may submit this information collection requirement electronically. Nothing in the FAR prohibits the use of electronic interchange.

**4. Efforts to identify duplication.** This requirement is issued under the Federal Acquisition Regulation (FAR) which has been developed to standardize Federal procurement practices and eliminate unnecessary duplication. Similar information is not already available to the Government.

**5. If the collection of information impacts small businesses or other entities, describe methods used to minimize burden.** The burden applied to small businesses is the minimum consistent with applicable laws, executive orders, regulations, and prudent business practices.

**6. Describe consequence to Federal program or policy activities if the collection is not conducted or is conducted less frequently.** The proposed collections of information will be conducted on an occasional basis within 14 days after contract award and within 14 days after the award of any subsequently awarded subcontract. Less frequent collection or no collection

of information would impede contracting officers from performing their administrative functions in an effective and efficient manner and would not comply with Department of Labor regulations.

**7. Special circumstances for collection.** Collection is consistent with guidelines in 5 CFR 1320.6.

**8. Efforts to consult with persons outside the agency.** Under the procedures established for development of the FAR, agency and public comments were solicited and each comment addressed before finalization of the text. A notice in the October 3, 2007 Federal Register made this requirement available to the public and requested comments. No major problems regarding this requirement were reported.

**9. Explanation of any decision to provide any payment or gift to respondents, other than reenumeration of contractors or guarantees.** Not applicable.

**10. Describe assurance of confidentiality provided to respondents.** This information is disclosed only to the extent consistent with prudent business practices, current regulations, and in accordance with the requirements of the Freedom of Information Act.

**11. Additional justification for questions of a sensitive nature.** No sensitive questions are involved.

**12 & 13. Estimated total annual public hour and cost burden.** Time required to read and prepare information is estimated at .05 hours per response.
