Text in bold is that which was read to the respondent. The responses are noted after each question.

Hello, my name is <your name> from the U.S. Census Bureau. I have some questions for you as a followup to a recent interview conducted by our field representative who visits your office each month, <FR name>. Did you recently complete an interview with that person? (If yes) Would you have a moment to answer a few questions about that interview? (If yes) Periodically, we are required to contact a sample of respondents to provide evidence that the information that we are collecting is appropriate and relevant. The information that you provided is solely for the field representative's use to assist in properly identifying and recording information about the permits for new residential construction that are issued by your office. Regarding your interview with <FR name>:

1. **Did you find the interview easy to complete?**

Yes

(If no) Please explain why not.

2. **Do you recall any questions that you didn't understand?**

No. It was pretty easy.

(If yes) Please provide examples.

3. **Did you feel that the information that was requested was relevant to allow the field representative to obtain information about your office's permits for new residential construction?**

Yes

(If no) Please explain why not.

4. **Do you have any other comments about the interview, or about the field representative's work listing permits in your office?**

No

Thank you very much for this information and for your continued support of our important surveys of new residential construction.
