This information is being collected to ensure accurate and timely records about the persons licensed to participate in fisheries under Federal regulations in the Western Pacific Region. This will enable NOAA Fisheries and the Western Pacific Fishery Management Council to (a) determine who would be affected by changes in management; (b) inform license holders of changes in fishery regulations; and (c) determine whether the objectives of the fishery program are being achieved by monitoring entry and exit patterns and other aspects of the fisheries. The information is used in analyzing and evaluating the potential impacts of regulatory changes on persons in the regulated fisheries as well as in related fisheries. Responses to the collection are required to obtain the benefit of a license for the fishery involved (ref. 50 CFR 665.13). Data provided concerning the vessel and/or business of the respondents is handled as confidential under the Magnuson-Stevens Fishery Conservation and Management Act (Sec. 402(b)). Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.
