(FY2007)**

**Indicators for School Health Programs:
to support Coordinated School Health Programs (CSHPs) and
to address Physical Activity, Nutrition, and Tobacco Use (PANT)**

**Fiscal Year: March 1, 2007 – February 29, 2008
Division of Adolescent and School Health**

**Program Announcement No. 03004:
Improving the Health, Education, and Well-Being of Young People Through
Coordinated School Health Programs**

Instructions

This set of indicators describes the performance in ten areas of your project to support Coordinated School Health Programs (CSHP): (1) joint activities of the State Education Agency and State Health Agency; (2) activities of state-level coalitions to support CSHP at the local level; (3) CSHP, physical activity, nutrition, and tobacco-use prevention policies; (4) curricula and instruction; (5) assessment of student performance; (6) health promotion and environmental approaches; (7) external collaboration; (8) targeting youth disproportionately affected by chronic disease; (9) project planning; and (10) other information and activities.

A glossary of terms is included at the end of the *Indicators*.

Activities to be reported are those for which **any amount** of DASH funds were used, or in which staff time to develop, implement, or evaluate activities was funded in any amount by DASH. These questions apply only to priority health risk behaviors addressed in Program Announcement 03004, excluding supplementary funding.

Please answer each question carefully and accurately. **Not all items or activities may reflect the emphasis of your plan for the current fiscal year, and therefore you may report that you have not performed activities in those areas by entering zeros. Additionally, you may not currently collect information about some activities. If so, please leave the answer blank.** Please be sure to include materials for those items requesting attachments.

Public reporting burden of this collection of information is estimated to average 9 hours per response, including the time reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a current valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS-E-11, Atlanta, Georgia 30333; ATTN: PRA (0920-0672).

*For further questions or assistance with completing this report
please contact your CDC project officer.*

FISCAL YEAR 2007 SCHOOL HEALTH PROGRAM INDICATORS

32. Please provide any additional general comments or information in the space below.

THANK YOU FOR YOUR RESPONSES. PLEASE RETURN THE INDICATORS.

GLOSSARY

Please refer to the following definitions when answering the questions.

COLLABORATE - Two or more partners jointly plan and implement program activities with definable roles and responsibilities for each partner.

COORDINATED SCHOOL HEALTH PROGRAM (CSHP) - A coordinated school health program is a planned and organized set of courses, services, policies, and interventions designed to meet the health and safety needs of K-12 students. Schools promote optimal physical, emotional, social, and educational development of students by providing health education; physical education; health services; nutrition services; counseling, psychological and social services; and a healthy and safe environment; and by promoting parent/community involvement and staff wellness. A successful and well-coordinated school health program is characterized by administrators, teachers, and school board members who view health protection and promotion as an essential part of the school's mission; a school health council comprised of school, family, and community representatives to ensure a planning process for continuous improvement; a school health coordinator responsible for organizing and managing the school health program; and school staff who help plan and implement a full array of school health courses, services, policies, and interventions.

CSHP STATE-WIDE COALITION - A confederation of organizations with similar goals that agree to work together toward a common goal. People who serve on coalitions, whether professional or volunteer, have obligations to the organization they represent as well as to the coalition.

CURRICULUM - An educational plan incorporating a structured, developmentally appropriate series of intended learning outcomes and associated learning experiences for students; generally organized as a related combination or series of school-based materials, content, and events.

DEVELOPMENT - The process of bringing into being, making active, available, or effective, CSHP-related materials, plans, policies, or activities.

DISTRIBUTE - Putting materials in the hands of appropriate personnel. Distribution may occur in response to requests for materials or through proactive sharing of information.

ENVIRONMENTAL APPROACHES - Those policies and programs that are intended to affect physical surroundings and the psychosocial climate and culture of the school. Environmental approaches include policies, programs, and services that reinforce school health education and physical education curricula as well as contribute to health outcomes for students and staff.

EVALUATION PLAN - A written evaluation plan may include process evaluation, to determine if activities were as planned and how well they were conducted, as well as outcome evaluation, to determine the impact of an activity or program on program objectives.

EXTERNAL PARTNERS - Agencies, organizations, and groups outside your own agency with which you collaborate or associate to further the goals of your CSHP project.

FISCAL YEAR (FY) - March 1, 2007 to February 29, 2008, the budget period for the cooperative agreement.

FORMATIVE EVALUATION - Gathering information during the early stages of your project or program, with a focus on finding out whether your efforts are unfolding as planned, uncovering any obstacles or unexpected opportunities that may have emerged, and identifying adjustments and corrections to your program.

FRAMEWORK - An outline or plan that presents both the content (e.g., important concepts, skills, and generalizations) and the process for developing curricula, instruction, and assessment.

GUIDANCE - A set of strategies that apply frameworks to develop policies, curricula, instruction, and assessment.

HEALTH EDUCATION - Includes planned sequential materials, instructions, and educational experiences delivered in the classroom setting that provide students with opportunities to acquire the knowledge and skills necessary for making health promoting decisions and achieving health literacy. Quality health education is based on sound theories of development and behavior change or empirically supportive practices that result in increased knowledge and positive behavior change.

HEALTHY EATING - Eating behaviors that promote health, growth, and intellectual development; prevent immediate nutrition-related health problems; and reduce risks for long-term chronic diseases (e.g., coronary heart disease, cancer, and stroke). Healthy eating behaviors include a diet consistent with recommendations from the Dietary Guidelines for Americans
<http://www.healthierus.gov/dietaryguidelines/>.

IMPLEMENTATION - To put into effect or accomplish plans, policies, or activities related to CSHP projects.

INDIVIDUALIZED TECHNICAL ASSISTANCE - Tailored assistance to meet site-specific needs with collaborative communication between a specialist and the site. Assistance takes into account site-specific circumstances and culture and can be provided through phone, mail, e-mail, Internet, or in-person meetings.

LOGIC MODEL - A logic model is a pictorial diagram that shows the relationship between your program components and activities and desired health outcomes. A logic model is a planning tool that might describe your entire program or a particular program objective or initiative.

MATERIALS - Resources including written materials (e.g., curricula, training materials, and pamphlets); audio visual materials (e.g., motion pictures and video tapes); pictorials (e.g., posters and similar educational materials using photographs, slides, drawings, or paintings); and electronic resources (e.g., Web sites, PDF files, and PowerPoint files).

MEMORANDUM OF UNDERSTANDING (MOU) - An agreement between agencies specifying the process or procedures for collaborative development of CSHP infrastructure. May also be called a Memorandum of Agreement.

MODEL POLICY - Model policies provide a framework to assist school officials in developing their own state or local policies. They are written as statements of best practice which can be adapted to fit local circumstances. Model policies reflect state-of-the-art, scientifically reliable information on what constitutes effective school health programs and the expert opinions of many reviewers. Included in model policies are excerpts or references to actual national, state, and local policies; a purpose or goals; rationale; and definitions.

NUMBER OF DISTRICTS REACHED DIRECTLY - A district is reached directly when one or more district level staff receives materials, training, or assistance from personnel funded by your CSHP project.

Each district reached is counted only once as being reached for a particular topic regardless of the number of district staff from that district are reached or the number of times district staff are reached.

NUMBER OF EXTERNAL PARTNERS REACHED DIRECTLY - An external partner is reached directly when one or more external partner's staff receives materials, training, or assistance from personnel funded by your CSHP project. Each external partner reached is counted only once as being reached for a particular topic regardless of the number of external partner staff from that external partner are reached or the number of times external partner staff are reached.

NUMBER OF REGIONAL SUPPORT UNITS REACHED DIRECTLY - A regional support unit is reached directly when one or more regional support unit staff receives materials, training, or assistance from personnel funded by your CSHP project. Each regional support unit reached is counted only once as being reached for a particular topic regardless of the number of regional support unit staff from that regional support unit are reached or the number of times regional support unit staff are reached.

NUMBER OF SCHOOLS REACHED DIRECTLY - A school is reached directly when one or more school staff receives materials, training, or assistance from personnel funded by your CSHP project. Each school reached is counted only once as being reached for a particular topic regardless of the number of school staff from that school are reached or the number of times school staff are reached.

NUTRITION - Relates to the foods and beverages people consume.

OUTCOME EVALUATION - Evaluation undertaken to determine if the changes ascribed to a program (e.g., changes in systems, collaborations, policies, or knowledge, attitudes, or behavior among administrators, teachers, school staff, community members, or youth) are associated with program activities.

PARTNERSHIP PLAN - Jointly prepared plans between the state education agency and the state health agency for coordinating administrative responsibilities, establishing reciprocal roles, and complementing school and youth-related health programs across the two agencies.

PHYSICAL ACTIVITY - Any bodily movement produced by skeletal muscles which results in caloric expenditure.

PHYSICAL ACTIVITY, NUTRITION, AND TOBACCO-USE PREVENTION (PANT) PROJECT - Any activities or personnel that are funded in part or in whole, through DASH cooperative agreement 03004 funds for chronic disease prevention through CSHP with a focus on PANT. May include the work of contract staff.

PHYSICAL EDUCATION - A planned and structured program of instruction and learning experiences that enables students to develop the knowledge, attitudes, skills, behaviors, and confidence needed to be physically active for life. Other health issues also may be included in physical education curricula, such as nutrition, physical activity, and tobacco-use prevention.

PHYSICAL EDUCATION CURRICULUM ANALYSIS TOOL (PECAT) - A tool for analyzing written physical education curricula to determine how closely they align with national standards for high-quality physical education. The PECAT helps school districts conduct a clear, complete, and consistent analysis of physical education curricula. PECAT results can help users enhance, develop, or select appropriate and effective physical education curricula for the delivery of quality physical education, which will improve the ability of schools to positively influence motor skills and physical activity behaviors among school-age youth.

POLICY - Any mandate issued or policies adopted by school district boards of education, the state school board, state legislature, or other district or state agencies that affects the environment in schools throughout the state. These include policies developed by your state or those based on model policies

developed elsewhere. Sample model policies for PANT are available in *Fit, Healthy, and Ready to Learn: A School Health Policy Guide* (March 2004), developed by the National Association of State Boards of Education (NASBE). Sample policies can be viewed at NASBE's website:

PRESENTATION - an informational and awareness raising activity taking at least 30 minutes and no more than 3 hours that focuses on a set of specific public health, curricular, or coordinated school health program topics. Presentations are tailored to specific audiences such as school administrators, faculty, education or health professionals, adolescents, parents, legislators, or community groups.

PRE-SERVICE LEARNING – Pre-service learning provides pre-professionals serving youth (e.g., educators, nurses, counselors) with an understanding of the central concepts, tools of inquiry, and structures of relevant disciplines.

PROCESS EVALUATION - Collecting and analyzing data to determine who, what, when, where, and how much of program activities have been conducted. Process evaluation allows staff to assess how well the program has been implemented.

PROFESSIONAL DEVELOPMENT - Those processes and activities designed to enhance the professional knowledge, skills, and attitudes of educators and others who work with youth, so that they might, in turn, improve the learning and health outcomes of children and adolescents. Professional development is consciously designed to actively engage learners and includes the planning, design, implementation, evaluation, and follow-up of professional development events (e.g., training, workshops, conferences, web-based learning, and coaching/mentoring).

PROFESSIONAL DEVELOPMENT EVENT- A set of skill-building processes and activities designed to assist targeted groups of participants in mastering specific learning objectives. Such events are delivered in an adequate time span (at least 3 hours) and may include, but are not limited to, curriculum and other training, workshops, conferences, and on-line or distance learning courses.

PROGRAM - A multi-faceted approach to decrease health risk behaviors that may include a combination of strategies such as one-on-one interventions, policy and climate changes, advocacy, peer interventions, mentoring programs, youth asset development, and outreach.

REGIONAL SUPPORT UNITS - A state-recognized agency or organization (e.g., universities, regional education support agencies, regional offices of education, regional training centers, teacher centers, county superintendent's offices, etc.) that provides professional development, technical assistance, and educational materials to school districts and schools within the state.

SCHOOL - A division of the public school system consisting of students in one or more grades or other identifiable groups organized to give instruction of a defined type. One school may share a building with another school or one school may be housed in several buildings. Each school usually has an identification number assigned by the state department of education for tracking purposes. Public schools include charter schools, magnet schools, vocational schools, and alternative schools.

SCHOOL DISTRICT - An education agency at the local level that exists primarily to operate public schools or to contract for public school services. Synonyms include local basic administrative unit, local education agency, SAU, parish, independent school districts, etc.

SCHOOL HEALTH COORDINATOR - The professional at the district or school level who is responsible for the management and the coordination of all school health policies, activities, and resources.

SCHOOL HEALTH COUNCIL - A school health council (SHC) guides school programming and enables collaborations between the school and the community to improve students' health and learning. Ideally, the

council is comprised of representatives from each of the eight components of a coordinated school health program, as well as parents, students, and other community representatives involved in the health and well-being of students. SHCs establish goals for the school health program and specific priority health issues; facilitate health programming and services in the school and between the school and community; and advocate for effective health policies, programs, and services.

SCHOOL HEALTH INDEX - The *School Health Index* is a self-assessment and planning tool that enables those who use it to identify the strengths and weaknesses of school health promotion policies and programs; develop an action plan for improving student health; and involve teachers, parents, students, and the community in improving school policies and programs.

SERVING PRIMARILY - Agencies whose main focus is on providing services tailored to a specific, identifiable population (e.g., by race, gender, etc.) or increasing the ability of others to provide services to that population.

SMART OBJECTIVES - Objectives are statements that describe program results to be achieved and how they will be achieved. **Specific** objectives include *who* will be targeted and *what* will be accomplished. **Measurable** objectives include *how much* change is expected, specifically enough that achievement of the objective can be measured through counting or documenting change. **Achievable** objectives can be realistically accomplished given your program's existing resources and constraints. **Realistic** objectives address the scope of the health problem and propose reasonable programmatic steps. **Time-phased** objectives provide a timeline indicating when the objective will be met.

SPECIFICALLY FOCUSED ON - Programs or activities that are tailored to a particular, identifiable population (e.g., by race, gender, etc.) or activities to increase the ability of others to provide such services or activities.

STANDARDS - An established set of indicators that describe the knowledge and skills essential to the development of student health literacy and provide the foundation for curriculum development, instruction, and assessment of student performance. Many states use the National Health Education Standards as the foundation for their own health education standards. Standards may be developed for physical education as well as health education. An abbreviated version of the National Health Education Standards developed by the Joint Committee on National Health Education Standards can be found at http://www.aahperd.org/aahe/pdf_files/standards.pdf. Additionally, an abbreviated version of the National Standards for Physical Education, Second Edition, can be found at http://www.aahperd.org/aahe/pdf_files/standards.pdf.

STATE EDUCATION AGENCY (SEA) - The department of state or territorial government responsible for public education policy, funding, monitoring, and training within that state or territory.

STATE HEALTH AGENCY (SHA) - The department of state or territorial government responsible for public health policy, funding, monitoring, and training within that state or territory.

TOBACCO-USE PREVENTION - Interventions that prevent or delay the initiation of tobacco use or reduce the prevalence of tobacco use, including tobacco-use cessation. Interventions may target individuals or groups of youth, in terms of policy and/or environmental changes and may occur in schools or in partnership with community organizations.

YOUTH DISPROPORTIONATELY AFFECTED - In addition to certain ethnic groups that appear to be disproportionately affected with chronic disease, youth who are at risk for chronic disease later in life include those who are obese (overweight), who use tobacco, and/or have high blood pressure.
