## ATTACHMENT I:

**ONE-WEEK POSTCARD REMINDER FOR MAIL SURVEY NONRESPONDENTS** 

## [Dear X:]

We recently mailed you a survey about the Emergency Severity Index (ESI), a triage tool used in emergency departments (EDs). The Agency for Healthcare Research and Quality (AHRQ) at the Department of Health and Human Services (HHS) is conducting an assessment of the ESI. When you requested the ESI training materials (handbook and DVDs), you provided contact information to participate in a survey about the ESI. We are interested in your thoughts about the ESI tool. If you have already completed and mailed back this survey, thank you for your participation. If you have not yet had the chance to complete your survey, we would appreciate your timely response.

Thank you in advance for your participation in this very important study.

Sincerely,

Bruce Siegel, MD, MPH Research Professor, Department of Health Policy The George Washington University

Daniel S. Gaylin, MPA Executive Vice President for Health Research NORC

Public reporting burden for this collection of information is estimated to average 20 minutes per response, the estimated time required to complete the survey. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: AHRQ Reports Clearance Officer Attention: PRA, Paperwork Reduction Project (0935-XXXX) AHRQ, 540 Gaither Road, Room # 5036, Rockville, MD 20850.
