Quantitative Information

Number and list of applications submitted during CY 2007:

Number and list of projected applications for CY 2008:

Number and List of facilities approved through the Corporate Program during CY 2007:

Combined TCIR/DART Rates for all VPP facilities for CY 2007:

Combined TCIR/DART Rates for all non-VPP facilities for CY 2007:

TCIR/DART percentage above/below the BLS average for your dominant SIC/NAICS:

Number and percentage of US-based facilities in VPP:

Number and percentage of US-based employees covered by VPP:

Cost savings due to VPP participation (formula is as follows):

$(C / 200,000) \times H = n$ where:

H = total hours worked at VPP sites

C = Collective DART rate for non-VPP sites

n = Number of expected DART cases for VPP sites

Then:

$(n - a) \times \$38,000 = x$ where:

n = Number of expected DART cases for VPP sites

a = Actual DART cases for VPP sites

x = Total \$ saved in DART injuries at VPP sites

Qualitative Information

Please cite any Corporate-level S&H policy/procedural changes (including to VPP pre-screening):

Were there any major changes in Corporate Management/Structure? If “yes,” please describe:

Please list any/all SGE and/or mentoring activities performed during CY 2007:

Please list any Corporate-wide success stories or best practices:

Please describe how VPP Corporate participation is benefiting your organization (include any time/cost savings, increased S&H awareness, etc.):

Please provide any feedback that you have regarding how OSHA could improve the VPP Corporate experience:

Other Issues/Concerns/Comments:
