

March 31, 2007

Examples of Region 2 **FY2007** Compliance Assistance

Supplement to the Information Collection Request package

Example Compliance Assistance Site Visits:

Lead in Drinking Water in Schools/Children's Health Initiative

Tribal Solid Waste and Open Dumps

Compliance assistance facility visit for dry cleaners, fleet maintenance, and department of public works

Example Compliance Assistance Workshops & Presentations:

Wet Weather Storm Water MS4 - Municipal Separate Storm Sewer Systems (MS4) compliance assistance provided to municipalities in western NY (Buffalo). First presentation provided a general overview of MS4 Audits. Second presentation developed for History of the Clean Water Act regulations.

Storm Water Construction General Permit - A joint seminar with the PR Environmental Quality Board, PR Department of Natural Resource and Environment and EPA. This consisted in providing general public, construction contractors, engineers, lawyers and so on, a briefing on construction activities permit requirements and available tools.

Landfill Workshop for Puerto Rico - develop and conduct workshop for state and federal inspectors on municipal solid waste landfill issues.

New Jersey Combined Sewer Overflow Permit Meeting - help NJ facilities understand the CSO permit conditions and requirements.

Environmental Management Systems for Healthcare Sector – Workshops to educate the healthcare sector on the benefits of the EMS and how the program can help come into compliance and go beyond compliance with environmental regulations.

Federal Facility Tank Workshop – A workshop for Federal Facilities to help them comply with the Federal requirements governing underground and above ground storage tanks.
