

**ADDENDUM TO THE PROVIDER AGREEMENT
TO ELECTRONICALLY FILE AND MAINTAIN
PEANUT WAREHOUSE RECEIPTS AND U.S. WAREHOUSE ACT DOCUMENTS**

This Addendum between (a) _____

(Provider) and the Farm Service Agency (FSA) authorizes the Provider to establish and maintain a database and system, referred to as a central filing system (CFS) for the purpose of electronically filing peanut warehouse receipts and United States Warehouse Act documents issued under the United States Warehouse Act (USWA) and permits the Provider to accept the filing of electronic warehouse receipts from other than USWA licensed warehouse operators in such electronic data filing system. Such electronically filed warehouse receipts for peanuts are hereafter referred to as "Electronic Warehouse Receipts (EWRs) and United States Warehouse Act Electronic Documents (USWAED)." All provisions and terms of the 'FSA Provider Agreement to Electronically File and Maintain Warehouse Receipts and United States Warehouse Act Documents'(WA-460) are incorporated except as modified or excluded herein.

This Addendum prevails to the extent it conflicts with the regulations found at 7 CFR Part 735, the Provider Agreement to Electronically File and Maintain Warehouse Receipts and United States Warehouse Act Documents (WA-460).

A peanut is defined as Runner Type, Spanish Type, Valencia Type, Virginia Type, or any other peanut type defined in the United States Standards for Peanuts or the Peanut Quality and Handling Standards, subject to the disapproval of FSA.

Notwithstanding any Federal law or United States Department of Agriculture (USDA) data security restrictions, nothing contained herein should be interpreted or construed by a Provider so as to deny cooperation with a State-licensing authority with respect to access to examination or investigation data stored in a CFS by a State-licensed warehouse.

The Provider shall not warrant nor guarantee any part of the underlining transaction or activity that involves the use of the Provider's CFS to perfect or consummate such a transaction or activity. The underlining transaction or activity shall be administered and governed by the applicable Federal or State rule of law.

This Addendum sets forth the Provider's minimum requirements for operational management, EWR record formatting, reporting requirements and the protocols to be used in the transmission of such information.

I. Common Computing Environment and eAuthentication

The Provider will, at a minimum, make available a common computing environment to the users of their CFS that offers nondiscriminatory access and ability to logon remotely to the Provider's CFS through an eAuthentication method recognized by the Deputy Administrator for Commodity Operations (DACO). Before accepting an EWR into their CFS as issued, the Provider will, at a minimum, authenticate the warehouse receipt signer as the person authorized by the warehouse operator to issue the EWR. Note: (Warehouse Operators will be required to submit to USDA or their applicable licensing authority a separate and individual e-signature card for each authorized EWR signer. It will be the responsibility of USDA or the applicable licensing authority, respectfully, to supply each applicable Provider with a complete and current listing of these individuals).

II. Requirements for CFS, Client/User Notification and User Agreements

The Provider will develop and operate their Providership and CFS in such a manner that each of the following applies:

- A. **accommodates** interface mechanisms that allow files to be transferred/downloaded or data to be transmitted from a client's/user's existing accounting software systems commonly used by the peanut industry to populate the information fields contained in EWRs and other USWAEDs offered by the provider,
- B. **provides operational access** to the CFS 24 hours each day by their clients/users and FSA, except during designated or pre-arranged routine backup and maintenance periods. The provider shall pre-notify FSA and clients/users of its schedule for such backup and maintenance.

- E. **notifies** DACO and affected clients/users immediately if any data related to an EWR or USWAED has been lost due to a CFS malfunction,
- F. **notifies** affected clients/users and applicable licensing authority immediately of any possible duplication of any EWR or USWAED issued under this Addendum with respect to the same agricultural product or any portion of that agricultural product while the EWR or USWAED is outstanding,
- G. **notifies** affected clients/users if the Provider's insurance policy is canceled at the same time USDA/FSA is notified, namely, no less than 60 calendar days prior to cancellation,
- H. **provides**, as authorized and permitted on a case-by-case basis by DACO, the comprehensive and continuous log and accompanying set of records that are, at a minimum, sufficient to allow for a reconstruction of the files, activities and events, including providing the affected client/user or holder with access to generate physical documents upon request pertaining to each EWR or USWAED that is: **(all apply)**
 - 1. issued,
 - 2. canceled,
 - 3. converted to paper,

Charges and rates assessed must be in effect for a minimum of one year after the effective date of the change. Further, the rates in effect at the time a client/user enters into a User Agreement with a Provider shall remain in effect for a minimum of one year, unless DACO grants the clients/users a waiver to change Providers pursuant to Section II, subsection L, items 1 and 2 of this Addendum.
- L. **enters into** a signed User Agreement with each client/user that sets forth the terms and conditions regarding the use of the Provider's CFS. Warehouse operators and other clients/users of the Provider's CFS shall become an *ex-facto* party to this addendum upon their acceptance and execution of the Provider's User Agreement. The Provider's User Agreement with warehouse operators and other clients/users shall incorporate the specific duties and responsibilities, as set forth in the regulations found at 7 CFR Part 735, the "Provider Agreement to Electronically File and Maintain Warehouse Receipts and United States Warehouse Act Documents" and this Addendum.

Warehouse operators shall not commit fraud by having both a paper warehouse receipt and a EWR representing the same peanut outstanding or uncanceled at the same time.
 4. Warehouse operators and other clients/users will be held severally liable for failing to follow the provisions set forth in Section IV, subsections D and E of this Addendum. Warehouse operators and other clients/users shall not commit fraud by having both a USWA paper document and a USWAED representing the same agricultural product outstanding or performing at the same time.
 5. DACO and the applicable licensing authority, respectively, reserve the right to suspend or terminate a warehouse operator or client's/user's right to access or use the Provider's CFS, pending an investigation, if they have a reasonable belief that a serious violation of Federal or State law and/or regulation has occurred.
- M. **ensures** that each warehouse operator who issues EWRs or other USWAEDs in their CFS has a current completed electronic profile for EWRs or USWAEDs that they issue on file with their applicable licensing authority. - T. **prevents and precludes** the warehouse operator or other client/user from making changes or modifications to any data field of a EWR or USWAED originally completed or intentionally left blank by the issuing warehouse operator or other client/user. However, the current holder may request a new EWR or USWAED at anytime by making the issuing warehouse operator/client/user the holder of the EWR or USWAED before issuing the new EWR or USWAED.
