

REMINDER E-MAIL #1:

Dear Parent (or Young Marine who is 18 years or older),

Thank you for participating in this research study to evaluate the Young Marines Drug Education Program. As a reminder, this study is being conducted to assess the effectiveness of the Young Marines Program in reducing drug use and promoting a healthy, drug-free lifestyle among youth. About three to four months ago participants in this study were surveyed about their drug use, attitudes, and knowledge.

Your child has (or you have) been randomly selected to complete a follow-up survey. This e-mail has been sent to you to request your participation one last time, which involves the completion of an on-line questionnaire that lasts about 45 minutes.

Below you will find the confidential, computer-generated individual access code that will be necessary for your child (or you) to obtain access to the internet survey website at youngmarinesstudy.org. Please complete this survey by *<insert date>*.

From this study, we will be able to make recommendations to ultimately better the Marine Corps sponsored services for youth drug education. We sincerely appreciate your participation!

REMINDER E-MAIL #2:

Dear Parent (or Young Marine who is 18 years or older),

Thank you for participating in this research study to evaluate the Young Marines Drug Education Program. About three to four months ago participants in this study were surveyed about their drug use, attitudes, and knowledge.

Your child has (or you have) been randomly selected to complete a follow-up survey. We recently contacted you via e-mail in order to request your continued participation. This will be the last task that we will ask for your assistance with during this study, which involves the completion of an on-line questionnaire that lasts about 45 minutes. Please take a moment to consider how important it is to have effective programs for reducing drug use and promoting a drug-free lifestyle among youth and participate in this follow-up survey.

Below you will find the confidential, computer-generated individual access code that will be necessary for your child (or you) to obtain access to the internet survey website at youngmarinesstudy.org. Please complete this survey by *<insert date>*.

From this study, we will be able to make recommendations to ultimately better the Marine Corps sponsored services for youth drug education. We sincerely appreciate your participation!

REMINDER E-MAIL #1:

Dear Young Marine Unit Commander,

As part of a research study to evaluate the Young Marines Drug Education Program, you are being asked to participate in a one-time survey about the drug education activities that your unit provides to Young Marines. We recently contacted you via e-mail to request your participation.

Only one completed survey per unit is needed. You, as the Unit Commander, are requested to complete this survey. However, you may pass this opportunity to complete the survey to another adult leader in your unit who is knowledgeable about your unit's drug education activities. Again, only one completed survey representing your unit is needed. You do not need to identify your name or specific unit on the survey, and participation is voluntary. The on-line survey takes about 20 minutes to complete.

Below you will find the confidential access code to enter the internet survey website at youngmarinesstudy.org. Please complete this survey by <insert date>.

From this study, we will be able to make recommendations to ultimately better the Marine Corps sponsored services for youth drug education. We sincerely appreciate your participation!
