Subject: PUBLIC COMMENT ON FEDERAL REGISTER ATTACHED BELOW IN FULL

> Subject: stupid wasteful spending of tax dollars

this information has been collected for the past 17 years and this agency should have enough information collected by now. there is no need to repeat and repeat and repeat and repeat into eternity just so bureaucrats can sit on their duffs and do surveys into eternity.

the cdc pays high wages. those wages should be going to concrete work in the lab to find cures for autism, and other diseases not sit on their duff and do surveys.

this is ludicrous to continue for more than 17 years.

stop funding this project. it should have been sunset at 10 years. it has gone on too long already.

lets get this agency doing something productive for the taxpayers that pay their salaries.
