## I. Funding Opportunity Description

The Land Remote Sensing (LRS) Program of the U.S. Geological Survey (USGS) Geography discipline is soliciting applications from qualified Educational Institutions, State and Local Governments, and Non-profit Organizations (NPOs) for a National Land Remote Sensing Education Outreach and Research Program (NLRSEORP). This effort involves the development of a U.S. national consortium in building the capability to receive, process and archive remotely sensed data for the purpose of providing access to university and State organizations in a ready to use form, and to expand the science of remote sensing through education, research / applications development and outreach in areas such as environmental monitoring, climate change research, natural resource management and disaster analysis.

Applicants should develop proposals to address the following program objectives:

- Define, consolidate and maintain the data and information requirements of the user community(ies) gathered via a nationwide consortium which includes universities throughout the US.
- Place in the public domain for free inspection and access, whenever feasible, all imagery and other sensor system or geospatial data purchased using public funds as the data becomes available. Data should be tailored to maximize usability to the scientific and academic community(ies) in the region.
- Establish strategic partnerships nationwide to develop and deploy remote sensing applications through collaborations involving university research teams, K-12 schools, Federal agencies, tribal, state and local governments, nongovernmental organizations, and commercial enterprises.
- Promote research and remote sensing experience at the university undergraduate and graduate level to increase numbers and visibility of graduating students with employment skills in remote sensing.
- Develop materials for and conduct or participate in appropriate educational and training organizations, curricula, programs, workshops, meetings, seminars, as well as technology transfer and outreach activities.

## V. Application Review Information

- A. Proposals will be evaluated by a panel of USGS geography program managers and scientists. The panelists read all the proposals prior to their meeting and at the panel meeting discuss each proposal according to the evaluation criteria. The panel will evaluate the technical merit of the proposals. The peer review panel votes on each proposal based on the criteria established in subsection B below; panel rankings are the principal determination of proposal success pending available funds.
- B. All proposals are considered in accordance with the criteria set forth below:
- 1) **National Coordination:** This factor considers the capability to coordinate activities of a national consortium with the objective of advancement of the science of land remote sensing. This also includes a demonstrated capability to provide a coordinated national level training program for current and future workforces as well as the activities tailored toward increasing land remote sensing awareness at the K-12 level education programs. (20 points)
  - 2) **Quality and Impact:** Technical quality of the proposal. This factor considers the scientific merit of the proposed approach and the probability of achieving positive results within the designated period. This would include the capability to leverage USGS capabilities along with other freely available data sources and discovery tools to provide basic maintenance of tailored archives intended to provide publicly accessible archives serving States and universities in user friendly formats. (20 points)
  - 3) **Experience/Competence:** Competence and recent research performance related to applications or uses for remotely sensed data. This factor considers experience and competence of the grant application team and the promptness with which the research results were disseminated to the scientific community from previous funding. This factor includes performance records and capability to provide the necessary facilities and support that will ensure satisfactory completion of the proposed work. This factor includes the timely publication of project results and data in peer-reviewed scientific and technical journals, the impact of the results, and whether reporting requirements from previous USGS awards have been satisfied. (30 points)
  - 4) **Budget and Administration:** Appropriateness and reasonableness of the budget. This factor considers whether the proposed budget is commensurate with the level of effort needed to accomplish the project objectives and whether the cost of the project is reasonable relative to the value of the anticipated results. (15 points)
  - 5) **Performance Metrics:** This factor considers the availability and effectiveness of a specific set of annual and 5-year program mileposts and metrics against which performance can be easily evaluated. (15 points)

## VI. Award Administration Information

- A. **Administrative and Policy Requirements:** The award recipient is responsible for managing the day-to-day operations of the grant/cooperative agreement and sub-award supported activities to assure compliance with applicable Federal

- b) An indication of any current problems which may impede performance.
- c) An outline of the anticipated activities and adjustments to the program during the next reporting period.
- d) A summary of expenditures incurred during the year, and any unspent balance of funds.

2. **Final Report.** The Recipient shall submit a final report to the designated USGS Project Officer 90 days after the expiration of the agreement. The final report shall include a quantitative description of activities and overall progress in response to the performance metrics which documents and summarizes the results of the entire grant. The final report shall include tables, graphs, diagrams, sketches, etc., as required to explain the results achieved under the grant. The report shall also include recommendations and conclusions based upon both the experience and the results obtained.

**3. Administrative/Financial Reports:**

SF-269 Final Financial Status Report	Original + 1	USGS Contracting Office	On or before 90 working days after the expiration of the agreement.

**SF-272 Report Preparation Instructions:** This completed form is required quarterly for each PMS subaccount. Quarterly reports are due 45 days after the end of each fiscal quarter. Instructions for submitting a SF 272 can be found at the following website:

[http://www.dpm.psc.gov/grant\\_recipient/psc\\_272\\_reports/psc\\_272\\_reports.aspx?explorer.event=true](http://www.dpm.psc.gov/grant_recipient/psc_272_reports/psc_272_reports.aspx?explorer.event=true)

If after 45 days, the Recipient has not submitted a report, the account will be placed in a manual review status. Funds may be withheld for accounts with delinquent reports.

**SF-269 Final Financial Status Report Preparation Instructions:** The recipient will liquidate all obligations incurred under the award and submit a final SF 269 Financial Status Report no later than 90 calendar days after the grant/cooperative agreement completion date. Recipient will promptly return any unexpended federal cash advances or will complete a final draw from PMS to obtain any remaining amounts due. Once 120 days has passed since the grant/agreement completion date, the PMS subaccount for this award may be closed by USGS at any time.

Subsequent revision to the final SF 269, Financial Status Report, will be considered only as follows:

- When the revision results in a balance due to the Government, the recipient must submit a revised SF 269 and refund the excess payment whenever the overcharge is discovered, no matter how long the lapse of time since the original due date of the report.
- When the revision represents additional reimbursement costs claimed by the recipient, a revised SF 269 may be submitted to the Contracting Officer with an explanation. If approved, the USGS will either request and pay a final invoice or re-establish the PMS subaccount to permit the recipient to make a revised final draw. Any revised final report representing additional reimbursable amounts must be submitted no later than 1 year from the due date of the original report, i.e., 15 months following the agreement completion date. USGS will not accept any revised SF 269 report covering additional expenditures after that date and will return any late request for additional payment to the recipient.

**C. Method of Payment:** The U.S. Geological Survey (USGS) is using the Department of Health and Human Services (DHHS) Payment Management System (PMS), Division of Payment Management of the Financial Management Service, Program Support Center, to provide electronic invoicing and payment for assistance award recipients. The Recipient must either have an established account or will establish an account with PMS at the time of award of the agreement. With the award of each grant/cooperative agreement, a sub-account will be set up from which the Recipient can draw down funds. The DHHS will forward instructions for obtaining payments to the recipients. Inquiries regarding this payment system should be directed to:

In case of any equipment or product that may be authorized to be purchased with financial assistance provided using funds made available in this Act, it is the sense of the Congress that entities receiving the assistance should, in expending the assistance, purchase only American-made equipment and products.

### b. Metric Conversion (43 CFR Sec 12.915)

All progress and final reports, other reports, or publications produced under this award shall employ the metric system of measurements to the maximum extent practicable. Both metric and inch-pound units (dual units) may be used if necessary during any transition period(s). However, the recipient may use non-metric measurements to the extent the recipient has supporting documentation that the use of metric measurements is impracticable or is likely to cause significant inefficiencies or loss of markets to the recipient, such as when foreign competitors are producing competing products in non-metric units.

Tickets (or documentation for electronic tickets) must identify the U.S. flag air carrier's designator code and flight number. See the Federal Travel Regulation §301-10.131 - §301-10.143 for definitions, exceptions, and documentation requirements. (See also Comp. Gen. Decision B-240956, dated September 25, 1991.)

f. Activities on Private And Other Non-Federal Lands

1) The recipient shall comply with applicable State, local and Tribal government laws, including laws relating to private property rights.

*This award involves funds appropriated to the biological research activity of the USGS. Therefore the following subsection of this provision applies:*

2) Funds provided for the biological research activity in USGS annual appropriations may not be used to conduct surveys on private property, unless specifically authorized in writing by the property owner.

a) Accordingly, the recipient shall not enter non-Federal real property for the purpose of collecting information regarding the property, unless the owner of the property has –

- (1) consented in writing to the entry;
- (2) been provided notice of that entry; and
- (3) been notified that any raw data collected from the property must be made available at no costs, if requested by the land owner.

b) In this provision, the term “recipient” includes any person that is an officer, employee, or agent of the recipient, including a person acting pursuant to a contract or sub-agreement.

g. No Endorsement Provision (43 CFR 12.2(d))

*Paragraph 2) applies to all awards.*

*The remainder of this provision applies because:*

- *the principal purpose of the agreement is a partnership where the recipient/partner contributes resources to promote agency programs or publicize agency activities, assists in fundraising, or provides assistance to the agency; and*
- *the agreement authorizes joint dissemination of information and promotion of activities being supported; and*
- *the recipient is not a State government, a local government, or a Federally-recognized Indian tribal government. ]*

1) Recipient shall not publicize or otherwise circulate, promotional material (such as advertisements, sales brochures, press releases, speeches, still and motion pictures, articles, manuscripts or other publications) which states or implies governmental, Departmental, bureau, or government employee endorsement of a product, service, or position which the recipient represents. No release of information relating to this award may state or imply that the Government approves of the recipient's work products, or considers the recipient's work product to be superior to other products or services.

2) All information submitted for publication or other public releases of information regarding this project shall carry the following disclaimer:

The views and conclusions contained in this document are those of the authors and should not be interpreted as representing the opinions or policies of the U.S. Government. Mention of trade names or commercial products does not constitute their endorsement by the U.S. Government.

3) Recipient must obtain prior Government approval for any public information releases concerning this award which refer to the Department of the Interior or any bureau or employee (by name or title). h. Access To Research Data

1) By regulation (43 CFR 12.936), recipients that are institutions of higher education, hospitals, or non-profit organizations are required to release research data first produced in a project supported in whole or in part with Federal funds that are cited publicly and officially by a Federal agency in support of an action that has the force

and effect of law (e.g., regulations and administrative orders). “Research data” is defined as the recorded factual material commonly accepted in the scientific community as necessary to validate research findings. It does not include preliminary analyses; drafts of scientific papers; plans for future research; peer reviews; communications with colleagues; physical objects (e.g., laboratory samples, audio or video tapes); trade secrets; commercial information; materials necessary to be held confidential by a researcher until publication in a peer-reviewed journal; information that is protected under the law (e.g., intellectual property); personnel and medical files and similar files, the disclosure of which would constitute an unwarranted invasion of personal privacy; or information that could be used to identify a particular person in a research study.

2) These requirements do not apply to commercial organizations or to research data produced by State or local governments. However, if a State or local governmental grantee contracts with an educational institution, hospital, or non-profit organization, and the contract results in covered research data, those data are subject to these disclosure requirements.

3) Requests for the release of research data subject to this policy are required to be made to USGS under, which will handle them as FOIA requests under 43 CFR 2.25. If the data are publicly available, the requestor will be directed to the public source. Otherwise, the USGS Contracting Officer/Grants Officer, in consultation with the affected recipient and the PI, will handle the request. This policy also provides for assessment of a reasonable fee to cover recipient costs as well as (separately) the USGS costs of responding.

i. Government Furnished Property Or Property Authorized For Purchase

Title to nonexpendable personal property acquired wholly or in part with Federal funds shall be vested in the Recipient unless otherwise specified in the award document. The Recipient shall retain control and maintain a property inventory of such property as long as there is a need for such property to accomplish the purpose of the project, whether or not the project continues to be supported by Federal funds. When there is no longer a need for such property to accomplish the purpose of the project, the Recipient shall use the property in connection with other Federal awards the Recipient has received. Under no circumstances shall title to such property be vested in a sub-tier recipient. Disposal of nonexpendable personal property shall be in accordance with the applicable OMB circular.

There is no non-expendable personal property authorized on this grant/cooperative agreement.

The following equipment will be vested:
