BILLING CODE 4510-FN-P

DEPARTMENT OF LABOR

Employment and Training Administration

[TA-W-62,871]

Central Michigan Staffing Workers On-Site at ITW Foils Mt. Pleasant, MI; Notice of Termination of Investigation

Pursuant to Section 221 of the Trade Act of 1974, as amended, an investigation was initiated on February 21, 2008 in response to a petition filed by a state representative on behalf of workers of Central Michigan Staffing, workers on-site at ITW Foils, Mt. Pleasant, Michigan.

All workers of the subject firm employed on site at ITW Foils, Mt. Pleasant, Michigan are covered by a certification of eligibility to apply for worker adjustment assistance and alternative trade adjustment assistance under petition number TA-W-62,538, as amended on February 27, 2008.

Consequently, further investigation in this case would serve no purpose and the investigation under this petition has been terminated.

Signed at Washington, DC, this 27th day of February 2008.

Richard Church,

Certifying Officer, Division of Trade Adjustment Assistance.

BILLING CODE 4510-FN-P

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA-2008-0003]

Powered Industrial Trucks Standard; Extension of the Office of Management and Budget's (OMB) Approval of Information Collection (Paperwork) Requirements

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Request for public comment.

SUMMARY: OSHA solicits comments concerning its proposal to extend OMB approval of the information collection requirements contained in the Powered Industrial Truck Standard (29 CFR

1910.178). The information collection requirements addresses truck design, construction, and modification, as well as certification of training and evaluation for truck operators.

DATES: Comments must be submitted (postmarked, sent, or received) by May 6, 2008.

ADDRESSES:

Electronically: You may submit comments and attachments electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal. Follow the instructions online for submitting comments.

Facsimile: If your comments, including attachments, are not longer than 10 pages, you may fax them to the OSHA Docket Office at (202) 693-1648.

Mail, hand delivery, express mail, messenger, or courier service: When using this method, you must submit three copies of your comments and attachments to the OSHA Docket Office, Docket No. OSHA-2008-0003, U.S. Department of Labor, Occupational Safety and Health Administration, Room N-2625, 200 Constitution Avenue, NW., Washington, DC 20210. Deliveries (hand, express mail, messenger, and courier service) are accepted during the Department of Labor's and Docket Office's normal business hours, 8:15 a.m. to 4:45 p.m., e.t.

Instructions: All submissions must include the Agency name and OSHA docket number for the ICR (OSHA-2008-0003). All comments, including any personal information you provide, are placed in the public docket without change, and may be made available online at <http://www.regulations.gov>. For further information on submitting comments see the "Public Participation" heading in the section of this notice titled **SUPPLEMENTARY INFORMATION.**

Docket: To read or download comments or other material in the docket, go to <http://www.regulations.gov> or the OSHA Docket Office at the address above. All documents in the docket (including this **Federal Register** notice) are listed in the <http://www.regulations.gov> index; however, some information (e.g., copyrighted material) is not publicly available to read or download through the Web site. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. You may also contact Theda Kenney at the address below to obtain a copy of the ICR.

FOR FURTHER INFORMATION CONTACT: Theda Kenney or Todd Owen,

Directorate of Standards and Guidance, OSHA, U.S. Department of Labor, Room N-3609, 200 Constitution Avenue, NW., Washington, DC 20210; telephone (202) 693-2222.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

Paragraph (a)(4) requires that employers obtain the manufacturer's written approval before modifying a truck in a manner that affects its capacity and safe operation; if the manufacturer grants such approval, the employer must revise capacity, operation, and maintenance instruction plates, tags, and decals accordingly. For front-end attachments not installed by the manufacturer, paragraph (a)(5) mandates that employers provide a marker on the trucks that identifies the attachment, as well as the weight of both the truck and the attachment when the attachment is at maximum elevation with a laterally centered load. Paragraph (a)(6) specifies that employers must ensure that the markers required by paragraphs (a)(3) through (a)(5) remain affixed to trucks and are legible.

Paragraphs (l)(1) through (l)(6) of the Standard contain the paperwork requirements necessary to certify the training provided to powered industrial truck operators. Accordingly, these paragraphs specify the following requirements for employers:

- *Paragraph (l)(1)*—Ensure that trainees successfully complete the training and evaluation requirements of paragraph (l) prior to operating a truck without direct supervision.

- *Paragraph (l)(2)*—Allow trainees to operate a truck only under the direct supervision of an individual with the knowledge, training, and experience to train operators and to evaluate their performance, and under conditions that do not endanger other employees. The training program must consist of formal instruction, practical training, and evaluation of the trainee's performance in the workplace.

- *Paragraph (l)(3)*—Provide the trainees with initial training on each of 22 specified topics, except on topics that the employer demonstrates do not apply to the safe operation of the truck(s) in the employer's workplace.

- *Paragraphs (l)(4)(i) and (l)(4)(ii)*—Administer refresher training and evaluation on relevant topics to operators found by observation or formal evaluation to operate a truck unsafely, involved in an accident or near-miss incident, or assigned to operate another type of truck, or if the employer identifies a workplace condition that could affect safe truck operation.

- *Paragraph (l)(4)(iii)*—Evaluate each operator's performance at least once every three years.

- *Paragraph (l)(5)*—Train rehires only in specific topics that they performed unsuccessfully during an evaluation and that are appropriate to the employer's truck(s) and workplace conditions.

- *Paragraph (l)(6)*—Certify that each operator meets the training and evaluation requirements specified by paragraph (l). This certification must include the operator's name, the training date, the evaluation date, and the identity of the individual(s) who performed the training and evaluation.

Requiring labels (markings) of modified equipment notifies employees of the conditions under which they can safely operate powered industrial trucks, thereby preventing such hazards as fires and explosions caused by poorly designed electrical systems, rollovers/tipovers that result from exceeding a truck's stability characteristics, and falling loads that occur when loads exceed the lifting capacities of attachments. Certification of training and evaluation provides a means of informing employers that their employees received the training, and demonstrated the performance necessary to operate a truck within its capacity and control limitations. Therefore, by ensuring that employees operate only trucks that are in proper

working order, and do so safely, employers prevent severe injury and death to truck operators and other employees who are in the vicinity of the trucks. Finally, these paperwork requirements are the most efficient means for an OSHA compliance officer to determine that an employer properly notified employees regarding the design and construction of, and modifications made to, the trucks they are operating, and that an employer provided them with the required training.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend its approval of the information collection requirements contained in the Standard on Powered Industrial Trucks (29 CFR 1910.178). The Agency is requesting to increase its current burden hour estimate associated with this Standard from 773,205 hours to 848,539 hours, a total increase of 75,534 hours. The Agency will summarize the comments submitted in response to this notice and will include this summary in the request to OMB.

Type of Review: Extension of a currently approved collection.

Title: Powered Industrial Trucks (29 CFR 1910.178).

OMB Number: 1218-0242.

Affected Public: Business or other for-profit.

Number of Respondents: 1,134,699.

Frequency: On occasion; annually; triennially.

Average Time Per Response: Ranges from two minutes (.03 hour) to mark an approved truck to 6.50 hours to train new truck operators.

Estimated Total Burden Hours: 848,539.

Estimated Cost (Operation and Maintenance): \$238,245.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows:

(1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (FAX); or (3) by hard copy. All comments, attachments, and other material must identify the Agency name and the OSHA docket number for the ICR (Docket No. OSHA-2008-0003). You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**). The additional materials must clearly identify your electronic comments by your name, date, and the docket number so the Agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693-2350 (TTY (877) 889-5627).

Comments and submissions are posted without change at <http://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and date of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download through this Web site. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <http://www.regulations.gov> Web site to submit comments and access the docket is available at the Web site's "User Tips" link. Contact the OSHA Docket Office for information about materials not available through the Web site, and for assistance in using the Internet to locate docket submissions.

V. Authority and Signature

Edwin G. Foulke, Jr., Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506

et seq.) and Secretary of Labor's Order No. 5-2007 (72 FR 31159).

Signed at Washington, DC, on February 29, 2008.

Edwin G. Foulke, Jr.

Assistant Secretary of Labor for Occupational Safety and Health.

BILLING CODE 4510-26-P

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: National Science Foundation.

ACTION: Notice and request for comments.

SUMMARY: Under the paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3501 *et seq.*), and as part of its continuing effort to reduce paperwork and respondent burden, the National Science Foundation (NSF) is inviting the general public or other Federal agencies to comment on this proposed continuing information collection. The National Science Foundation (NSF) will publish periodic summaries of the proposed projects.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Foundation, including whether the information will have practical utility; (b) the accuracy of the Foundation's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of automated collection techniques or other forms of information technology.

DATES: Written comments on this notice must be received by May 6, 2008, to be assured consideration. Comments received after that date will be considered to the extent practicable. Send comments to address below.

FOR FURTHER INFORMATION CONTACT: Ms. Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, Virginia 22230; telephone (703) 292-7556; or send e-mail to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8

p.m., eastern time, Monday through Friday.

SUPPLEMENTARY INFORMATION:

Title of Collection: 2008 Survey of Doctorate Recipients.

OMB Approval Number: 3145-0020.

Expiration Date of Approval: February, 28, 2009.

Type of Request: Intent to seek approval to reinstate an information collection for three years.

1. Abstract

The Survey of Doctorate Recipients (SDR) has been conducted biennially since 1973. The 2008 SDR will consist of a sample of individuals under the age 76 who have earned a research doctoral degree in a science, engineering or health field from an U.S. institution. The purpose of this longitudinal panel study is to provide national estimates on the doctoral science and engineering workforce and changes in employment, education and demographic characteristics. The study is one of three components of the Scientists and Engineers Statistical Data System (SESTAT), which produces national estimates of the size and characteristics of the nation's science and engineering population.

The National Science Foundation Act of 1950, as subsequently amended, includes a statutory charge to "* * * provide a central clearinghouse for the collection, interpretation, and analysis of data on scientific and engineering resources, and to provide a source of information for policy formulation by other agencies of the Federal Government." The SDR is designed to comply with these mandates by providing information on the supply and utilization of the nation's doctoral level scientists and engineers. Collected data will be used to produce estimates of the characteristics of these individuals. They will also provide necessary input into the SESTAT data system, which produces national estimates of the size and characteristics of the country's science and engineering population.

The Foundation uses this information to prepare congressionally mandated reports such as *Women, Minorities and Persons with Disabilities in Science and Engineering and Science and Engineering Indicators*. The NSF publishes statistics from the survey in many reports, but primarily in the biennial series, *Characteristics of Doctoral Scientists and Engineers in the United States*. A public release file of collected data, designed to protect respondent confidentiality, also will be made available to researchers on CD-

ROM and on the World Wide Web. A private contractor is currently being selected to conduct this study for NSF. Data will be obtained by mail questionnaire, computer-assisted telephone interviews and web survey beginning October 2008. The survey will be collected in conformance with the Confidential Information and Statistical Efficient Act of 2002. The individual's response to the survey is voluntary. NSF will insure that all information collected will be kept strictly confidential and will be used only for statistical purposes.

2. Expected Respondents

A statistical sample of approximately 40,000 individuals with U.S. earned doctorates in science, engineering and health will be contacted in 2008. The total response rate in 2006 was 79%. NSF is also considering sampling 2,000 additional U.S. doctorates that received their degrees in the 2001-2007 academic years, who are non U.S. citizens, and indicated they planned on leaving the United States after they received their doctorate.

3. Estimate of Burden

The amount of time to complete the questionnaire may vary depending on an individual's circumstances; however, on average it will take approximately 25 minutes to complete the survey. We estimate that the total annual burden will be 16,700 hours during the collection. If the additional 2,000 respondents who had plans to leave the United States are included in the sample, that will increase the burden an additional 850 hours to a total of 17,550 hours.

Dated: March 4, 2008.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.
