**FORMS FOR THE 2009 HIGH SCHOOL
TRANSCRIPT STUDY**

Introduction

The School Information Form (SIF) for the 2009 HSTS includes two parts. Part 1 is completed by telephone with the NAEP school coordinator or person designated by the NAEP school coordinator to be the school HSTS coordinator. Part 2 of the SIF is sent to the HSTS coordinator in advance of the assessment day visit to help him/her prepare for the data collection interview. The textbook forms are also sent in advance of the visit.

A. Part 1 of School Information Form (SIF)

Instructions to Supervisors on filling out the School Information Form (SIF)

1. The SIF is in two parts. Part 1 is to be filled out over the phone with the HSTS School Coordinator. You will begin by calling the NAEP School Coordinator, telling him/her about HSTS, and then identifying the best person to be the HSTS Coordinator at the school.
2. Part 1 of the SIF is scripted, but you may deviate from the script to address specific aspects of the study, answer questions in detail, etc.
3. As mentioned in #1, you will ask the NAEP School Coordinator the name of a person at the school who is very knowledgeable about the content of the course catalog, the transcript layout, and details about classes offered at the school. Often, this person is the registrar. After you get this person's name, you should call him/her to let him/her know that you will be at the school and would like to spend some time with him or her obtaining detailed information on the school's courses. Tell him/her that you will send a School Information Form (SIF) so that he/she will know what types of questions to expect when you visit and to encourage the person to begin filling out the SIF prior to your visit. They will be receiving only Part 2 of the SIF. On Part 2 of the SIF there are some "field use only" questions that will be answered during the visit.
4. In the advance letter, the school was asked to send its 2008-09 course catalog and the three prior years' catalogs to Westat. Westat will notify you prior to your call and prior to your visit which catalogs have been received.

For any catalogs not received **before your call**, you will ask the HSTS coordinator to send copies of those catalogs or course listings to Westat before your visit to the school.

For any catalogs not received by Westat **before your visit date**, you will need to pick them up on your visit.

5. You will visit the school on the agreed-upon date and you will meet with the HSTS School Coordinator to complete information on the SIF (such as whether the HSTS School Coordinator works in the summer, etc.), insert disclosure notices, and obtain a sample transcript.
6. If necessary, after meeting with the HSTS School Coordinator, you will meet with the registrar or other person knowledgeable about the school's courses. You will spend some time reviewing and/or completing Part 2 of the SIF.

Hello, this is [FIRST NAME, LAST NAME] from the National Assessment of Educational Progress or NAEP. I'm calling to tell you about another aspect of NAEP. It is the High School Transcript Study or HSTS. The HSTS is being conducted to provide educational policy makers with information regarding current course offerings and course-taking patterns in secondary schools. This study will also permit researchers to examine the relationship between course-taking patterns and educational achievements. We would like to designate a HSTS School Coordinator for this portion of NAEP; it is usually the school registrar, or someone who is knowledgeable about the courses offered at your school.

1. Would you be the contact person or the School Coordinator for HSTS?
 Yes [Go To #2] No

If "No" Who will be the HSTS contact at the school? What is this person's position at the school? And what is his/her telephone number and email address?

3. There are two phases to the High School Transcript Study. During phase 1, in January - March, I would like to visit your school to collect information about your school, course catalogs and a sample transcript that reflects the 2009 graduating class. For phase 2, in the summer, I or another HSTS representative will return to the school to obtain transcripts of those students who were selected for the math or science portion of NAEP. Absolutely no student time is involved in the study and confidentiality of the materials we collect will be strictly maintained. You will be reimbursed for all transcripts. **Materials received at Westat are listed on page 1.**

Thank you so much for speaking with me today. I will be sending you **[read list of applicable items to send]**:

Student with Disabilities (SD) Questionnaire

(For 2009)

Cover to come from Pearson

UNITED STATES DEPARTMENT OF EDUCATION

Dear Principal or Administrator:

Thank you for allowing your school to participate in the National Assessment of Educational Progress (NAEP). These assessments are vital to measuring the academic skills and progress of the students in our nation and in each state.

As you know, the Individuals with Disabilities Education Act (IDEA) requires that all students with disabilities participate in state and district wide assessment programs through regular assessments, including with appropriate accommodations when necessary, or alternate assessments. The No Child Left Behind Act (NCLB) likewise requires the participation of students with disabilities in the student academic assessments required under that Act, and also requires that English language learners, as well as other groups of students, participate in those state assessments. NCLB allows for reasonable accommodations on assessments administered to English language learners. Although federal law does not explicitly specify similar requirements regarding the participation of students with disabilities and English language learners in NAEP, the NAEP program has been working very hard to make its sample of students taking the assessments as representative as possible of all students. We are asking you to ensure that the greatest possible number of students with disabilities and English language learners in your school, who are selected to participate, do in fact take the assessments.

Please keep in mind that NAEP does not produce results for individual students or schools, as your state or district tests might. All results are summarized only at the national and state levels (and for a few large urban districts). In other words, the NAEP assessments do not impose consequences for the student or the school, and are instead intended purely to provide a picture of educational performance and progress.

We want to include as many students as possible in the picture NAEP provides for us. For this reason, we ask you to do all you can to help ensure the participation of students who are selected for NAEP whenever possible, including students with disabilities and English language learners. Students taking the NAEP are able to use most of the testing accommodations they usually receive in other tests (e.g., extended time, small group testing). Most students with disabilities and English language learners are indeed able to participate in NAEP with their fellow students.

NAEP is one of the most visible and important indicators of educational performance in this country, and we very much appreciate your support in making NAEP as inclusive as possible.

GENERAL DIRECTIONS FOR COMPLETING THIS QUESTIONNAIRE

The student named on the front cover of this questionnaire has been selected to participate in the National Assessment of Educational Progress (NAEP) and has been identified as a student with disabilities (SD). NAEP's definition of SD includes only:

- students with an Individualized Educational Program (IEP), for reasons other than being gifted or talented; or
- students with a Section 504 Plan.

Please answer the following questions about this student and return the completed questionnaire to the NAEP school coordinator. Refer to *A Guide for Completing the Student with Disabilities (SD) and English Language Learner (ELL) Questionnaires* for additional information about how to complete this questionnaire.

NEW

1. Why is this student classified as SD? (Fill in **one** oval.)
 - Ⓐ This student has a disability and has an IEP. → *Continue with Question 2.*
 - Ⓑ This student has a Section 504 Plan. → *Continue with Question 2.*
 - Ⓒ This student has a disability, but the student's IEP or Section 504 Plan is in process and/or the student's status is unclear. → *Continue with Question 2.*
 - Ⓓ This student does not have an IEP or Section 504 plan, but requires an accommodation to be tested. → *Continue with Question 2.*
 - Ⓔ This student has an IEP because he/she is classified as gifted and talented. → *Do not complete the remainder of this questionnaire. Return it to the NAEP school coordinator.*
 - Ⓕ This student no longer has an IEP or Section 504 Plan. → *Do not complete the remainder of this questionnaire. Return it to the NAEP school coordinator.*

DIRECTIONS. The decision tree below illustrates the steps in determining how best to include this student in NAEP. By answering the questions that follow, you will provide the information needed to make this determination.

For NAEP, each student takes the assessment in only one subject. The subject this student has been selected to take is identified on the front cover in the box labeled “Directions for School Staff.” Refer to this subject when answering the questions below.

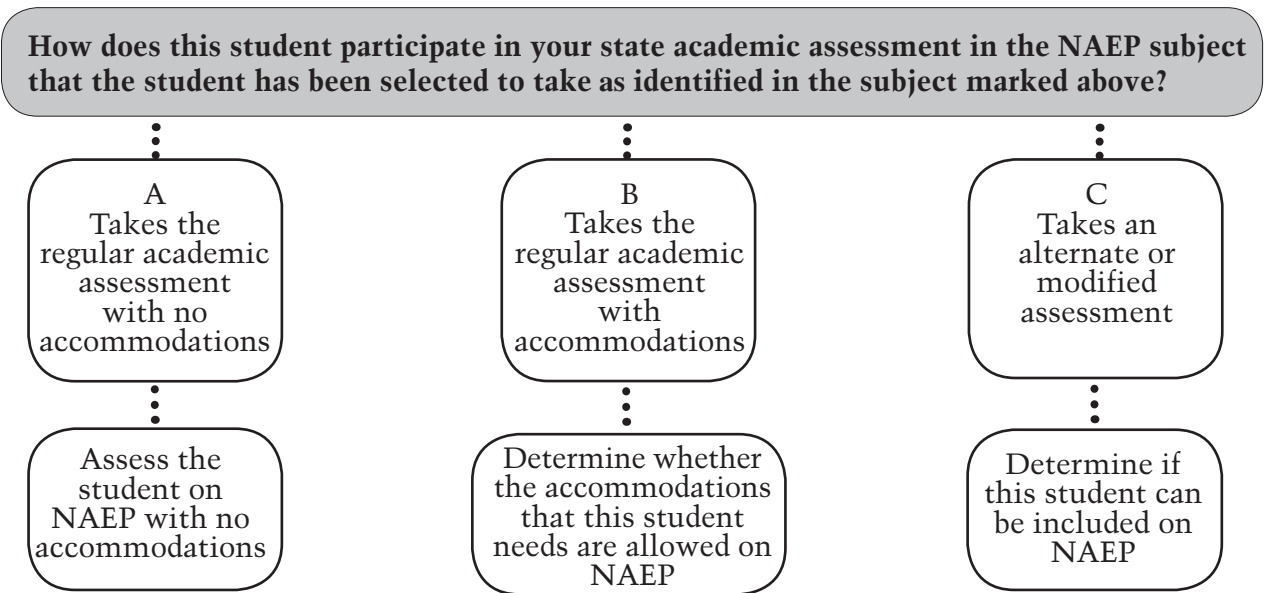

If the subject is reading or mathematics, refer to the state assessment used for reporting adequate yearly progress under No Child Left Behind. If the subject is not reading or mathematics, refer to the state assessment, if available; otherwise, refer to local testing or instructional practice when answering **Questions 3–6**.

UNITED STATES DEPARTMENT OF EDUCATION

Dear Principal or Administrator:

Thank you for allowing your school to participate in the National Assessment of Educational Progress (NAEP). These assessments are vital to measuring the academic skills and progress of the students in our nation and in each state.

As you know, the Individuals with Disabilities Education Act (IDEA) requires that all students with disabilities participate in state and district wide assessment programs through regular assessments, including with appropriate accommodations when necessary, or alternate assessments. The No Child Left Behind Act (NCLB) likewise requires the participation of students with disabilities in the student academic assessments required under that Act, and also requires that English language learners, as well as other groups of students, participate in those state assessments. NCLB allows for reasonable accommodations on assessments administered to English language learners. Although federal law does not explicitly specify similar requirements regarding the participation of students with disabilities and English language learners in NAEP, the NAEP program has been working very hard to make its sample of students taking the assessments as representative as possible of all students. We are asking you to ensure that the greatest possible number of students with disabilities and English language learners in your school, who are selected to participate, do in fact take the assessments.

Please keep in mind that NAEP does not produce results for individual students or schools, as your state or district tests might. All results are summarized only at the national and state levels (and for a few large urban districts). In other words, the NAEP assessments do not impose consequences for the student or the school, and are instead intended purely to provide a picture of educational performance and progress.

We want to include as many students as possible in the picture NAEP provides for us. For this reason, we ask you to do all you can to help ensure the participation of students who are selected for NAEP whenever possible, including students with disabilities and English language learners. Students taking the NAEP are able to use most of the testing accommodations they usually receive in other tests (e.g., extended time, small group testing). Most students with disabilities and English language learners are indeed able to participate in NAEP with their fellow students.

NAEP is one of the most visible and important indicators of educational performance in this country, and we very much appreciate your support in making NAEP as inclusive as possible.
