15. There is no change in respondent burden.

16. The information is collected for insurance purposes only and there are no plans for publication.

17. The collection instruments, VA Forms 29-4125, 29-4125a, and 29-4125k, may be reproduced and/or stocked by the respondents and veteran service organizations. The forms do not display an expiration date, and if required to do so would result in unnecessary waste of existing stocks of forms. The forms are submitted to OMB for approval every three years. As such, this date requirement would also result in an unnecessary burden on the respondents and would delay Department action on the benefit being sought. VA also seeks to minimize its cost to itself of collecting, processing and using the information by not displaying the expiration date. For the reasons stated, VA

continues to seek an exemption that waives the displaying of the expiration date on these forms.

18. There are no exceptions to the certification statement identified in Item 19 of OMB Form 83-I.
