The U.S. Department of Agriculture collects and publishes information on prices received by farmers for peanuts. USDA uses results from the weekly survey in the determination of the loan repayment rate for peanuts. Monthly and season average prices for peanuts, are used to compute counter-cyclical payments, parity prices, and the indexes of prices received by farmers. They are also used in estimating the value of production and National farm income.

Response to this survey is voluntary and not required by law. The information you provide is kept confidential and used only in combination with other reports to estimate State and National prices. Thank you.

Please make corrections to name, address and Zip Code, if necessary.

INSTRUCTIONS:  Report total peanuts purchased from US farmers the week ending	
If no purchases, check 'NONE'	
► Report varieties of peanuts that were purchased from farmers.	
▶ Report total pounds purchased and total dollars paid to farmers for peanuts purchased the previous week.	
▶ Report total pounds purchased and total dollars paid to farmers for peanuts purchased the week ending	·
► For contract purchases, report quantity received and total dollars paid the week ending	_ when payment
is made and you receive ownership of the peanuts.
