- And
- Total household income at or below the national poverty level for a family of 4, or less than 50 percent of county median household income in both of the previous 2 years (**to be determined annually using Commerce Department Data).

****NOTE:** For up-to-date data for this definition, a "limited resource farmer or rancher" status can be determined using the website for USDA Limited Resource Farmer and Rancher Online Self Determination Tool at <http://www.lrftool.sc.egov.usda.gov/tool.asp>. PART C - CROP/TYPE IDENTIFICATION

Purpose of this notice and definitions. For purposes of this form "insurable crops" are those for which a policy or plan of catastrophic coverage (CAT) insurance was available through the Federal Crop Insurance Corporation (FCIC). "Noninsurable crops" are those crops for which a policy or plan of insurance is not available, however, coverage is offered by the Farm Service Agency (FSA) under the Noninsured Crop Disaster Assistance Program (NAP).

In Title XII of the Food, Conservation, and Energy Act of 2008, Congress provided for new disaster programs, which together will be called the "Supplemental Agricultural Disaster Assistance Programs". Generally, producers are eligible only if they have, for all crops, obtained either FCIC crop insurance or NAP coverage. However, for the 2008 crop year only, producers who were eligible to obtain NAP coverage but did not, can "buy-in" or be "waived in" to be eligible for these disaster programs by paying by the deadline a fee in an amount equal to the unpaid CAT or NAP fees. For this purpose, producers who want to buy-in to these disaster programs must complete this form if they had unpaid NAP crops and a separate form if they had unpaid CAT crops.

This form is for the 2008 noninsurable NAP crops listed below. **The NAP fee is \$100 per crop, but not more than \$300 per producer per county, or \$900 total per producer for all counties.** Accordingly, the buy-in cost with respect to 2008 noninsurable crops is based on those levels minus any previously paid fees for NAP. The producer must "buy-in" for all noninsurable and insurable crops. If a producer has 2008 insurable crops, there is a separate buy-in amount due. Separate forms are required for the 2008 insurable crops and separate dollar limitations apply to those crops.

List all of the producer's noninsurable crops below for which NAP coverage was not purchased. Remember, producers need to file a separate form for 2008 insurable crops if they did not obtain CAT coverage for all of those crops for 2008. The buy-in fee is non-refundable and due at the time a producer files the CCC-753.

PART D - PRODUCER AND CCC REPRESENTATIVE'S CERTIFICATION

I have read this form and would like to buy-in or be waived in to the 2008 Supplemental Agricultural Disaster Assistance Programs. To be eligible for the program, payment is due at the time this form is filed. I have paid the above calculated buy-in fee, or my buy in fee is \$0. (Note - Application will not be complete until payment is made - payment must be made by August 20, 2008, unless that date is extended by law). I certify all information entered on this form (CCC-753) is true and correct. I understand that the buy-in fee waives the risk management purchase requirement of the Food, Conservation, and Energy Act of 2008, but does not provide coverage for noninsurable crops. A separate application must be filed to be eligible for benefits under the 2008 Supplemental Agricultural Disaster Assistance Programs. All information provided herein is subject to verification by the Commodity Credit Corporation. As provided in various statutes, failure to provide true and correct information may result in civil suit or criminal prosecution and the assessment of penalties or pursuit of other remedies. I am aware of and understand the requirements of the Collection of Information and Data (Privacy Act).

This application is not valid unless accompanied by the applicable buy-in fee.
