OMB No. 1140-0016
Application for Registration of Firearms Acquired by Certain Government Entities
ATF F 10 (5320.10)

1. The registration of National Firearms Act (NFA) firearms is required by 26 U.S.C. 5841 and 27 CFR 479.101. Possession of an unregistered NFA firearm is illegal and the firearm is contraband. There was no provision in the NFA for the registration of unregistered NFA firearms which were acquired by State and local government agencies during the course of their official duties, such as by seizure and abandonment.

In order to assist these agencies, 27 CFR 479.104 provides for the limited registration of such firearms, for official use only. Registration is achieved by the filing of ATF F 10.

2. ATF F 10 is used by State and local government agencies to effect the registration of otherwise unregistrable NFA firearms. Once registered, the firearms cannot be transferred into commercial channels. If there were no means for registering these unregistered NFA firearms, the firearms would have to be destroyed or abandoned, thus hampering law enforcement agencies in performing their official duties.

The information on ATF F 10 is verified by ATF personnel during the processing of the application to ensure that an unregistered NFA firearm is being registered and that the applicant is a government agency eligible to possess the firearm. This information is also used by ATF to determine the lawful registration of an NFA firearm and/or to pursue the criminal investigation into an unregistered NFA firearm.
