## Reminder about Eligibility Requirements

This form is intended for applicants for U.S. citizenship who seek an exception to the English and civics testing requirements for naturalization "because of physical or developmental disability or mental impairment." In general, applicants for naturalization are required to learn and demonstrate knowledge of the English language, including an ability to read, write, and speak words in ordinary usage in the English language, as well as demonstrate knowledge and understanding of the fundamentals of the history, principles, and form of government of the United States (civics).

## **Definition of Disability and/or Impairment(s):**

The disability and/or impairment(s) rendering the individual incapable of meeting the testing requirements must be long-term; result from anatomical, physiological, or psychological abnormalities (which can be supported by medically acceptable techniques); and result in functioning so impaired as to render an individual completely **unable** to learn and demonstrate the required knowledge.

This definition of disability may be different from definitions used by the Social Security Administration and Department of Veterans Affairs or used in worker's compensation claims; however, such disability determinations may be considered as evidence.

## **Preparation of the Certification**

All questions must be answered fully and accurately, using common terminology that a person without medical training can understand, with no abbreviations. Copies of relevant medical reports/records may be attached to support the claim indicated. However, a supplemental report is not acceptable as a substitute for any of the responses.

USCIS recommends that the certifying medical professional complete the fillable electronic Form N-648 provided on the USCIS website ("Immigration Forms" link www.uscis.gov). If typed or completed manually, print legibly in black ink.

If you need more space, attach additional pages, indicating item, applicant's name, and your signature on each. (See instructions for further details)
