DEPARTMENT OF HOMELAND SECURITY**Transportation Security Administration****Intent to Request Renewal From OMB of One Current Public Collection of Information: Flight Crew Self-Defense Training—Registration and Evaluation**

AGENCY: Transportation Security Administration, DHS.

ACTION: Notice.

SUMMARY: The Transportation Security Administration (TSA) invites public comment on one currently approved Information Collection Request (ICR) abstracted below that we will submit to the Office of Management and Budget (OMB) for renewal in compliance with the Paperwork Reduction Act. The ICR describes the nature of the information collection and its expected burden. The collection involves requesting, name, contact information, airline employee number and Social Security number (last four digits) from flight and cabin crew members of air carriers to verify employment status to confirm eligibility to participate in advanced self-defense training provided by TSA. Eligible training participants are flight crew members of an airline conducting scheduled passenger operations. See 49 U.S.C. 44918. Additionally, each participant is asked to complete a voluntary course evaluation form after the training concludes.

DATES: Send your comments by June 16, 2008.

ADDRESSES: Comments may be mailed or delivered to Joanna Johnson, Communications Branch, Business Management Office, Operational Process and Technology, TSA-32, Transportation Security Administration, 601 South 12th Street, Arlington, VA 22202-4220.

FOR FURTHER INFORMATION CONTACT: Joanna Johnson at the above address, or by telephone (571) 227-3651 or facsimile (703) 603-0822.

SUPPLEMENTARY INFORMATION:

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to

respond to, a collection of information unless it displays a valid OMB control number. The information collection request (ICR) documentation is available at <http://www.reginfo.gov>. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

1652-0028, *Flight Crew Self-Defense Training—Registration and Evaluation*. TSA is seeking to renew the ICR, currently approved under OMB number 1652-0028, to continue compliance with a statutory mandate. Under Title VI, Sec. 603 of Vision 100—Century of Aviation Reauthorization Act (Pub. L. 108-176, 117 Stat. 2490, 2563, Dec. 12, 2003), TSA is required to develop and provide a voluntary advanced self-defense training program for flight and cabin crew members of air carriers providing scheduled passenger air transportation. See 49 U.S.C. 44918(b).

TSA collects limited biographical information from flight and cabin crew members to confirm their eligibility to participate in this training. TSA also asks participants to complete an anonymous and voluntary evaluation form after participation in the training to assess the quality of the training. TSA requests this renewal so that TSA may continue confirming participants' eligibility and attendance for the training program, as well as to continue to assess training quality. TSA confirms the eligibility of the participant by contacting the participant's employer. Attendance is confirmed by comparing registration information against a sign-in sheet provided in the classroom. The estimated number of annual respondents is 3,000 and estimated annual burden is 750 hours. There is no estimated annual cost burden to respondents.

Issued in Arlington, Virginia, on April 9, 2008.

Fran Lozito,

Director, Business Management Office, Operational Process and Technology.

Transportation Security Administration

Intent To Request Approval From OMB of One New Public Collection of Information: Critical Facility Information of the Top 100 Most Critical Pipelines

AGENCY: Transportation Security Administration, DHS.

ACTION: Notice.

SUMMARY: The Transportation Security Administration (TSA) invites public comment on a new Information Collection Request (ICR) abstracted below that we will submit to the Office of Management and Budget (OMB) for approval in compliance with the Paperwork Reduction Act. The ICR describes the nature of the information collection and its expected burden. This collection provides TSA critical facility and annual product through-put information from owners or operators of the nation's largest pipelines, and is necessitated by the requirements set forth in the Implementing the Recommendations of the 9/11 Commission Act of 2007.

DATES: Send your comments by June 16, 2008.

ADDRESSES: Comments may be mailed or delivered to Joanna Johnson, Communications Branch, Business Management Office, Operational Process and Technology, TSA-32, Transportation Security Administration, 601 South 12th Street, Arlington, VA 22202-4220.

Information Collection Requirement

Purpose of Data Collection

Section 1557(b) of the Implementing the Recommendations of the 9/11 Commission Act of 2007, specifically tasks TSA to develop and implement a plan for inspecting certain critical facilities of the 100 most critical pipeline systems. See Pub. L. 110-53, 121 Stat. 266 at 475 (Aug. 3, 2007). The predominant criterion used to determine the nation's top 100 pipeline systems in terms of criticality is the quantity of hazardous liquid or natural gas product that is transported through a pipeline in one year (annual through-put). Using annual through-put data from Federal and commercially available data as a preliminary determinant, TSA has selected the nation's top 125 pipeline systems from which annual through-put and critical facility information will be requested. TSA is requesting annual product through-put information from these top 125 pipeline systems in order to ensure that selection of the top 100 pipeline systems for inspection reflects the most recent throughput data and is as complete and accurate as possible.

Description of Data Collection

TSA is requesting information from the owners/operators of 125 systems. Within each of the system owner/operator companies, both the annual through-put and critical facility information has already been determined and is readily available to employees within the respective companies. System through-put is a figure already determined and frequently used by pipeline companies for various business, financial, and operations performance purposes. Per guidance set forth in the "Pipeline Security Circular September 4, 2002" (2002 Guidelines) issued by the U.S.
