2. Re-inspection (To be completed and initialed by the inspector)

If the inspector discovers that any item during the Initial Inspection fails to comply with the manufacturer's installation instructions or with an installation design and instructions that have been certified by a professional engineer or registered architect, the installation must be re-inspected after the installation is corrected.

Describe the work performed following the initial inspection and if the inspection item(s) are in compliance. Attach additional sheet(s) if necessary.

3. Inspector Verification

I hereby certify, in accordance with 24 CFR § 3286.507, that manufactured home identified above has been installed in accordance with the manufacturer's installation instructions or with an installation design and instructions that have been certified by a professional engineer or registered architect. It is a crime to knowingly make false statements and/or certifications in any matter within the jurisdiction of the United States such as the certification on this or any similar form. Penalties upon conviction can include a fine and imprisonment. See 18 U.S. Code Section 1001.
