#### U.S. IMPORTERS' QUESTIONNAIRE

# PRESTRESSED CONCRETE STEEL WIRE STRAND ("PC STRAND") FROM BRAZIL, INDIA, JAPAN, KOREA, MEXICO, AND THAILAND

This questionnaire must be received by the Commission by no later than JULY 20, 2009

See page 4 of the Instruction Booklet for filing instructions.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its reviews of the countervailing duty order on PC strand from India and antidumping duty orders on PC strand from Brazil, India, Japan, Korea, Mexico, and Thailand (Inv. Nos. 701-TA-432 and 731-TA-1024-1028 (Review) and AA1921-188 (Third Review)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your possession (19 U.S.C. § 1333(a)).

#### PART I.—GENERAL INFORMATION

The questions in this questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible. Public reporting burden for this questionnaire is estimated to average 40 hours per response, including the time for reviewing instructions, searching existing data sources, gathering the data needed, and completing and reviewing the questionnaire. Send comments regarding the accuracy of this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to the Office of Investigations, U.S. International Trade Commission, 500 E Street, SW, Washington, DC 20436.

I-7.	<u>Covering and/or coating</u> Does your firm cover and/or coat or is it capable of covering and/or coating bare PC strand (e.g., lubricate with grease and encase in a plastic tube and/or coat with epoxy)?							
	No Yes Please answer the questions below.							
	(a) Describe in some detail your firm's process involved in covering and/or coating the bare PC strand, indicating the specific type(s) of covering and/or coating and the type and level of technical expertise, and the type and cost of equipment, required to cover and/or coat the bare PC strand. Indicate whether your firm coats the PC strand with epoxy and/or covers the PC strand with a plastic sleeve, coats it with grease, cuts it to length, packages it, or performs any other specific operations in the preparation and shipping of the product.							
	(b) Of the total value of the covered and/or coated PC strand that your firm shipped in 2008, what percentage was accounted for by the valued of the uncovered PC strand? If your answer differs by type of covering or coating, please explain percent.							
	(c) Of the total value of your cost of goods sold of the covered and/or coated PC strand that your firm shipped in 2008, what percentage was accounted for by its purchases of uncovered PC strand? If your answer differs by type of covering or coating, please explain percent.							
	(d) Of the uncovered PC strand that your firm purchased in 2008 for covering and/or coating by your firm, how much consisted of U.Sproduced uncovered PC strand, how much consisted of uncovered PC strand produced in Brazil, India, Japan, Korea, Mexico, or Thailand, and how much consisted of uncovered PC strand produced in all other countries?							
	Produced in the United States pounds							
	Produced in Brazil, India, Korea, Mexico, or Thailand pounds							
	Produced in all other countries pounds							
	Total pounds							
	(e) Describe in some detail how important your firm's covering and/or coating of PC strand is in its overall operations. What share (in percent) of your firm's total sales in 2008 was accounted for by the PC strand that it covered and/or coated? If your answer differs by type of covering or coating, please explain. Does your firm perform any other operations, such as post-tensioned design engineering services?

#### **PRICE DATA**

This section requests quarterly price and quantity data, f.o.b. your U.S. point of shipment, for your commercial shipments to unrelated U.S. customers during January 2003–March 2009 of the following products you imported from Brazil, India, Japan, Korea, Mexico, and/orThailand:

Product 1–½ inch, grade 270 (270,000 PSI), low relaxation, <u>UNCOVERED</u> prestressed concrete stand sold for PRE-TENSIONED applications.

Product 2–½ inch, grade 270 (270,000 PSI), low relaxation, <u>UNCOVERED</u> prestressed concrete stand sold for POST-TENSIONED applications.

Product 3–½ inch, grade 270 (270,000 PSI), low relaxation, <u>COVERED</u> prestressed concrete stand that is greased and covered in a polyethylene wrap sold for POST-TENSIONED applications.

Please note that total dollar values should be f.o.b., U.S. point of shipment and should not include U.S.-inland transportation costs. Total dollar values should reflect the *final net* amount paid to you (i.e., should be net of all deductions for discounts or rebates). See instruction booklet.

3.			□ No	YesPlease explain.				
4.			□ No	YesPlease explain.				
5.			□ No	YesPlease explain.				

III-16.	<u>Changes in substitutes.</u> Have there been any changes in the number or types of products that can be substituted for PC strand since 2003?						
	☐ No ☐ YesPlease explain.						
III-17.	Anticipated changes in substituteDo you anticipate any changes in terms of the substitutability of other products for PC strand in the future?						
	☐ No ☐ YesPlease describe and provide any underlying assumptions, along with relevant portions of business plans or other supporting documentation that address this issue.						
III-18.	Raw materialsTo what extent have changes in the prices of raw materials affected your firm's selling prices for PC strand since 2003? Also discuss any anticipated changes in your raw material costs in the future, identifying the time period(s) involved and the factor(s) that you believe would be responsible for such changes. Provide any underlying assumptions, along with relevant portions of business plans or other supporting documentation that address this issue.						
III-19.	<u>Changes in factors affecting supply</u> Have any changes occurred in any other factors affecting supply (e.g., changes in availability or prices of energy or labor; transportation conditions; production capacity and/or methods of production; technology; export markets; alternative production opportunities; or other foreign suppliers of PC strand to the U.S. market) that affected the availability of U.Sproduced PC strand in the U.S. market since 2003?						
	☐ No ☐ YesPlease note the time period(s) of any such changes, the factors(s) involved, and the impact such changes had on your shipment volumes and prices.						

III-20.	Has your firm refused, declined, or been unable to supply PC strand since January 1, 2003? (Examples include placing customers on allocation or "controlled order entry," declining to accept new customers or renew existing customers, delivering less than the quantity promised, unable to meet timely shipment commitments, etc.)							
	□ No	YesPlease note and document the time period(s) (i.e., month and year), the customer involved; and the amount and type of product involved.						
III-21.	Availa	bility of supply (U.Sproduced)						
	(a)	Do you anticipate any changes in terms of the availability of U.Sproduced PC strand in the U.S. market in the future?						
		☐ Increase ☐ No change ☐ Decrease						
	(b)	If you anticipate changes in supply, please identify the changes, including the time period and the impact of such changes on shipment volumes and prices. Provide any underlying assumptions, along with relevant portions of business plans or other supporting documentation that address this issue.						
III-22.	<u>Availa</u>	bility of "subject" import supply						
	(a)	Do you anticipate any changes in terms of the availability of PC strand imported from Brazil, India, Japan, Korea, Mexico, or Thailand in the U.S. market in the future?						
		☐ Increase ☐ No change ☐ Decrease						
	(b) If you anticipate changes in supply, please identify the changes, including to and the impact of such changes on shipment volumes and prices. Provide a assumptions, along with relevant portions of business plans or other support documentation that address this issue.							

III-23.	Availability of "nonsubject" import supplyHas the availability of NONSUBJECT PC strand ( <i>i.e.</i> , PC strand imported from countries other than Brazil, India, Japan, Korea, Mexico, or Thailand) changed since 2003?					
	☐ No ☐ YesPlease explain.					
III-24.	Shift salesDescribe how easily your firm can shift its sales of PC strand between the U.S. market and alternative country markets. In your discussion, please describe any contracts, other sales arrangements, or other constraints that would prevent or retard your firm from shifting PC strand between the U.S. and alternative country markets within a 12-month period. Provide any underlying assumptions, along with relevant portions of business plans or other supporting documentation that address this issue.					
III-25.	<u>Product changes</u> Have there been any significant changes in the product range, product mix, of marketing (including sales over the internet) of PC strand since 2003?					
	☐ No ☐ YesPlease describe and quantify if possible.					
III-26.	Anticipated product changesDo you anticipate any changes in terms of the product range, product mix, or marketing (including sales over the internet) of PC strand in the future? Provide any underlying assumptions, along with relevant portions of business plans or other supporting documentation that address this issue.					
	☐ No ☐ YesPlease identify, including the time period.					

III-27.	<u>Demar</u>	nd trends							
	(a)	How has the demand within the United States for PC strand changed since January 1, 2003? What principal factors affect changes in demand?							
		☐ Increased	☐ No Change	Decreased	Fluctuated				
	(b)		l outside the United State hat principal factors affe						
		☐ Increased	☐ No Change	Decreased	Fluctuated				
III-28.	Antici		2 ate demand will change v

		☐ Increase	☐ No Change	Decrease	Fluctuate				

#### PART III.--PRICING AND MARKET FACTORS--Continued

III-29.	<u>Price differences.</u> Please compare market prices of PC strand in U.S. and non-U.S. markets, it
	known. Provide specific information as to time periods and regions for any price comparisons.

III-30. Market studies.--Please provide as a separate attachment to this request any studies, surveys, etc. that you are aware of that quantify and/or otherwise discuss PC strand supply (including production capacity and capacity utilization) and demand in (1) the United States, (2) each of the other major producing/consuming countries, including Brazil, India, Japan, Korea, Mexico, or Thailand, and (3) the world as a whole. Of particular interest is such data from 2003 to the present and forecasts for the future.

#### PART III.--PRICING AND MARKET FACTORS--Continued

III-31. <u>Interchangeability by country-pair.</u>—Is PC strand produced in the United States and in other countries interchangeable (*i.e.*, can they physically be used in the same applications)? Please indicate below, using "A" to indicate that the products from a specified country-pair are *always* interchangeable, "F" to indicate that the products are *frequently* interchangeable, "S" to indicate that the products are *never* interchangeable, and "0" to indicate *no familiarity* with products from a specified country-pair. <sup>1</sup>

Country-pair	Brazil	India	Japan	Korea	Mexico	Thailand	Other countries		
United States									
Brazil									
India									
Japan									
Korea									
Mexico									
Thailand									
Ter any country-pair producing PC strand which is <i>sometimes</i> or <i>never</i> interchangeable, please explain the factors that limit or preclude interchangeable use:									

#### PART III.--PRICING AND MARKET FACTORS--Continued

III-32. <u>Differences other than price by country-pair</u>.--Are differences other than price (*i.e.*, quality, availability, transportation network, product range, technical support, *etc.*) between PC strand produced in the United States and in other countries a significant factor in your firm's sales of the products? Please indicate below, using "A" to indicate that such differences are *always* significant, "F" to indicate that such differences are *frequently* significant, "S" to indicate that such differences are *never* significant, and "0" to indicate *no familiarity* with products from a specified country-pair.<sup>1</sup>

Country-pair	Brazil	India	Japan	Korea	Mexico	Thailand	Other countries	
United States								
Brazil								
India								
Japan								
Korea								
Mexico								
Thailand								
To any country-pair for which factors other than price always or frequently are a significant factor in your firm's sales of PC strand, identify the country-pair and report the advantages or disadvantages imparted by such factors:
