What is the SBA Disaster Loan Program?

In the wake of hurricanes, floods, earthquakes, wildfires, tornadoes and other disasters, the SBA is the primary source of money from the Federal government for long-term recovery assistance. For disaster damage to private property owned by individuals, families and businesses not fully covered by insurance, the basic form of Federal assistance is low-interest, long-term disaster loans from the SBA.

Property owners usually have some insurance coverage, but often it does not cover all losses or even the type of hazard, which caused the damage. This leaves individuals and businesses with significant uninsured costs.

Most people cannot afford to pay for expensive disaster repairs out-of-pocket. SBA disaster loans make recovery possible for the majority of borrowers.

Note Regarding Insurance

SBA disaster loans are available for the amount of the disaster-related damages, LESS any insurance recoveries and assistance from other disaster relief agencies.

It is not necessary that you settle with your insurance company before you apply for an SBA disaster loan. If your claim is questioned or otherwise delayed, we can loan the full amount of the damages so you can begin repairs. The insurance settlement is then assigned to us to reduce the loan once the settlement is received.

If your loan is approved, you may be eligible for additional funds to cover the cost of safeguarding your property from similar damages as caused by this disaster. It is not necessary for you to submit the description and cost estimates with the application. SBA approval of these safeguarding measures will be required before any loan increase.

By checking this box, you are interested in having SBA consider this increase.

Filing Requirements

Complete and sign the Tax Information Authorization (IRS Form 8821) available in the link below. This income information, obtained from the IRS, will help us determine your repayment ability. If we need additional income information, you may be asked to provide copies of your income tax returns including all schedules. [Link to SBA Forms / 8821](#)

If you have changed employment within the past 2 years, attach a copy of a current (within 1 month of the application date) pay stub.

If you have insurance and your claim has been settled, submit a copy of your settlement sheet or adjuster's proof of loss. If your claim has not been settled, submit a copy of the schedule of coverage from your insurance policy. This information is needed because the law only allows us to loan the difference between your disaster losses and any insurance or other recoveries.

Return the signed IRS Form 8821 and any other documents to SBA by e-mail, mail, fax, or hand deliver to the nearest disaster field location/center. Your communication must contain your 10 digit reference number and your full name.
