USER NOTE: SELECT APPROPRIATE TERMS

Selection item 1. Use with cooperators who grant easements that reserve the right to use the road without cost, or that are silent as to provisions for bearing a proportionate share of road cost prior to commercial haul.

 The foregoing notwithstanding, this easement is granted subject to the following reservations by Grantor, for itself, its permittees, contractors, and assignees:

1. The right to use the roads without cost for all purposes deemed necessary or desirable by Grantor in connection with the protection and administration of Grantor's lands or resources, now or hereafter owned or controlled, provided that use for commercial hauling purposes, other than the removal of timber cut in construction or maintenance of the road or other occasional incidental use, shall be made only after arrangements have been made to pay or perform its pro-rata share of road maintenance.
2. The right alone to extend rights and privileges for use of the road constructed on the premises to other users; provided, that such users shall pay a fair share of the current replacement cost less depreciation of the road to the Grantee and reconstruct the road as necessary to accommodate their use.
3. The Grantor retains the right to occupy and use the right-of-way and to issue or grant rights-of-way for land uses for other than road purposes, upon, over, under, and through the easement area provided that the occupancy and use do not interfere unreasonably with the rights granted herein.
4. The right to cross and recross the premises and road at any place by any reasonable means and for any purpose in such manner as does not interfere unreasonably with use of the road.
5. The right to all timber now or hereafter growing on the premises, subject to Grantee's right to cut such timber as hereinbefore provided.

Selection item 2. Use with cooperators who grant easements that provide for landowner bearing proportionate share of road costs prior to use for commercial haul.

 The foregoing notwithstanding, this easement is granted subject to the following reservations by Grantor, for itself, its permittees, contractors, and assignees:

1. The right to use the roads without cost for all purposes deemed necessary or desirable by Grantor in connection with the protection and administration of Grantor's lands or resources, now or hereafter owned or controlled, including the use for commercial hauling purposes for removal of timber cut in construction or maintenance of the road and other occasional incidental use.
2. The right alone to extend rights and privileges for use of the road constructed on the premises to other users provided that such users shall pay a fair share of the current replacement cost less depreciation of the road to the Grantee and to reconstruct the road as necessary to accommodate their use.
3. The Grantor retains the right to occupy and use the right-of-way and to issue or grant rights-of-way for land uses for other than road purposes, upon, over, under, and through the easement area provided that the occupancy and use do not interfere unreasonably with the rights granted herein.
4. The right to cross and recross the premises and road at any place by any reasonable means and for any purpose in such manner as does not interfere unreasonably with use of the road.
5. The right to all timber now or hereafter growing on the premises, subject to Grantee's right to cut such timber as hereinbefore provided.
6. The right to terminate this easement if jurisdiction and control of the road are assumed by the Grantor as a Forest Development Road and issue a replacement easement providing for use of the road. At such time, the Grantor will pay its proportionate share of the current replacement cost less depreciation of the road to the Grantee as consideration for the termination of this easement. The replacement easement shall be in the current standard format that provides the Grantee the right to use the road for all purposes deemed necessary or desirable by Grantee in connection with the protection, administration, management, and utilization of Grantee's lands and resources served by this road, now or hereafter owned or controlled, subject to such traffic control regulations and rules as Grantor may reasonably impose upon or require of other users of the road without unreasonably reducing the rights herein granted.

The Chief, Forest Service, may terminate this easement, or any segment thereof, (1) by consent of the Grantee, (2) by condemnation, or (3) after a five (5) year period of nonuse, by a determination to cancel after notification and opportunity for hearing as prescribed by law; Provided, That the easement, or any segment thereof, shall not be terminated for nonuse as long as the road, or segment thereof is being preserved for prospective future use.
