2008

M311C—Corn (WET AND DRY MILL PRODUCERS OF ETHANOL) (MONTHLY REPORT)

DEFINITIONS AND SPECIAL INSTRUCTIONS

1. Scope of survey

This survey covers all establishments generating corn by-products in the wet and dry mill process of ethanol production.

2. Figures to be reported

Companies with more than one establishment manufacturing the products covered by this survey are requested to complete a separate report form for each location. If you have not received a separate report form for each of your establishments, please call the contact shown on the report form or write to the U.S. Census Bureau for additional forms. A separate report form is required for each wet or dry mill which your company operates.

a. Materials and oils to be included on this report

Report all quantities of by-product production and corn grind used during ethanol production, whether for your own account or on a toll basis.

All establishments reporting corn by-products should report corn grind. Corn grind is a necessary input in the production process of corn by-products.

Corn grind in wet mill {1200}: Corn processed by steeping whole kernels in water to release starch.

Corn gluten meal {1201} — High protein {gluten} feed product separated in the corn wet milling process and combined with minimal quantities of starch and fibrous fraction {approximately 60 percent protein}.

Corn gluten feed {1202} — Medium protein medium energy feed product consisting of the corn bran and condensed steep water solubles remaining after the extraction of starch, gluten, and germ. It may include corn germ meal and other co-products of wet milling {approximately 20 percent protein}

Wet Corn gluten feed {1203} — Medium protein, medium energy feed product made by screening and pressing wet corn fiber to reduce water content. It can include steep liquor, corn germ meal, and fermentation residues {approximately 40-60 percent dry matter}.

Corn germ meal {1204} — Medium protein,

medium energy feed product obtained from the corn germ fraction after the corn oil has been removed {approximately 20 percent protein}.

Corn and other grain grind in dry mill; including beverage alcohol distillation {1300} — Corns and other grains processed by grinding kernels into coarse flour and fermenting to convert starch to sugar, including those used in the distillation of beverage alcohol.

Distillers Wet Grain {1301} — The feed product obtained after the removal of ethanol by distillation from the yeast fermentation of a grain or a grain mixture by separating the resultant coarse grain fraction of the whole stillage not dried.

Distillers Dried Grain with Solubles {1302} — The feed product obtained after the removal of ethanol by distillation from the yeast fermentation of a grain or a grain mixture by condensing and drying at least 3/4 of the solids by the methods employed in the grain distilling industry.

Distillers Dried Grain {1303} — The feed product obtained after the removal of ethanol by distillation from the yeast fermentation of a grain or a grain mixture by separating the resultant coarse grain fraction of the whole stillage and drying it by methods employed in the grain distilling industry.

Distillers Dried Solubles {1304} — The feed product obtained after the removal of ethanol by distillation from the yeast fermentation of a grain or a grain mixture by drying the thin stillage fraction.

Condensed Distillers Solubles {1305} — The feed product obtained after the removal of ethanol by distillation from the yeast fermentation of a grain or a grain mixture by condensing the thin stillage fraction to a semi-solid.

Other Corn By-Products {1400} — report any and all corn ethanol by-products produced at the establishment not listed on this form, whether in the wet or dry mill process.

b. Consistency checks

If your company also refines or further processes corn crude vegetable oils, a report form should also be filed for each such location on Form M311J, "Monthly Report of Oilseeds, beans, and Nuts, Primary Processors." If you are not filing a Form M311J for such locations, please notify us and we will send you the necessary report forms.

If you are an ETHANOL DRY OR WET MILL PLANT reporting corn grind and/ or corn by-products, it is HIGHLY UNLIKELY that you would need to report corn crude vegetable oil production on Form M311J. Ethanol crude oil and stocks is NOT collected on this survey or the M311J survey.

3. Definitions

The product detail for this survey, as shown in the Reference List, is defined according to standard nomenclature for this industry.

Wet Mill Ethanol Plant — Corn wet milling is the process of separating the corn kernel into starch, protein, germ, and fiber in an aqueous medium prior to fermentation.

Dry Mill Ethanol Plant — In dry milling, the entire corn kernel is first ground into flour and the starch in the flour is converted to ethanol via fermentation.

CURRENT INDUSTRIAL REPORTS

Corn (Wet and Dry Mill
Producers of Ethanol)

The 8-digit number that appears above indicates that the Office of Management and Budget has approved this survey. If that number is not displayed, do not complete this form. YOUR RESPONSE IS REQUIRED BY LAW (Title 13, United States Code). By section 9 of the same law, YOUR REPORT IS CONFIDENTIAL. It may be seen only by persons sworn to uphold the confidentiality of Census Bureau information and may be used only for statistical purposes. The law also provides that copies retained in your files are immune from legal process.

In correspondence pertaining to this establishment's report, please refer to the 11 digit Identification Number (ID) 89100975790

Item		Unit of measure	Item code	JUN 2008	MAY 2008	APR 2008
Product code	Description					
3112218111	distillers dried grain with solubles (DDGS)	1000 lbs	1302			
3112218111	distillers dried grains (DDG)	1000 lbs	1303			
3112218111	distillers dried solubles (DDS)	1000 lbs	1304			
3112218111	cond. distillers solubles (CDS)	1000 lbs	1305			
3112218111	Other Corn By-Products	1000 lbs	1400			

If all your items are not listed, please use additional lines or a blank sheet of paper.

PART II Has there been any change in the ownership or operation of this establishment during this period?

Yes - Indicate type of change below. No - Skip to Part III.

	Name of company	Address (Number and street, city, State, ZIP Code)	Date of change
A. <input type="checkbox"/> Purchased from			
B. <input type="checkbox"/> Sold to			
C. <input type="checkbox"/> Plant discontinued all operations	Date		
D. <input type="checkbox"/> Plant operations no longer covered by this survey - Describe in "Remarks" the products currently produced.			
E. <input type="checkbox"/> Reorganized - Describe in "Remarks;" e.g., partnership change or change in corporate status.			

PART III Do the figures shown on this report and on your last report cover the identical establishments?

Yes No - Indicate reasons for difference in "Remarks."

PART IV Remarks

PART V CERTIFICATION - This report is substantially accurate and has been prepared in accordance with instructions.
