## M311N — ANIMAL AND VEGETABLE FATS AND OILS (PRODUCTION, CONSUMPTION, AND STOCKS)

### DEFINITIONS AND SPECIAL INSTRUCTIONS

#### 1. Scope of survey

This survey covers establishments producing or consuming major edible and inedible fats and oils and warehouses storing these products.

#### 2. Figures to be reported

Companies with more than one establishment manufacturing the products covered by this survey are requested to complete a separate report form for each location. If you have not received a separate form for each of your establishments, please call the contact shown on the report form or write to the U.S. Census Bureau for additional forms.

You should report on this form if your plant operations involve:

Refining of any of the specified vegetable oils. Note: If your operations also involve the crushing or solvent processing of any vegetable oil bearing raw materials, you should also report on Census Form M311J, "Oilseeds, Beans, and Nuts, Monthly Report of Primary Processors."

Production and consumption of any of the specified animal fats. Note: If you produce but do not consume animal fats, you may report on Census Form M311L, "Fats and Oils, Monthly Report of Renderers."

Production of any of the fats and oils products specified in Reference List A, part II.

In addition, a limited number of large consumers of fats and oils are selected by the Census Bureau to report on Form M311N instead of on closely related Form M311M, "Fats and Oils, Monthly Report of Consumers."

Reference List A is a list of fats and oils collected on this survey. Reference List B specifies the items of information required for these fats and oils.

If you begin to consume, process, or store an oil which has not been preposted on the form, post it on the blank lines. If you are reporting in the "All Other Fats and Oils" category, review this each month to make sure it does not include oils specifically listed which should be reported separately.

#### 3. Unit of measure

Report all quantities in thousands of pounds.

#### 4. General definitions

a. Production — Report the quantities of the specified primary fats and oils and end products produced during the month.

b. Consumption — Report the quantities of crude oil consumed in the production of once-refined oil. Also report the quantities of crude oil and once-refined oil consumed directly in the production of listed end products during the month.

c. Stocks — Report the quantities of the specified primary fats and oils and end products stored at this location on the last day of the month.

#### Include

Stocks stored at this location regardless of ownership including government agencies such as the Commodity Credit Corporation.

Shipments in transit to this establishment on the last day of the month. For example, if a shipment arrived on the 3rd of February and you know that it was in transit for 5 days, include the oil in your January 31 stocks report.

#### Exclude

Outgoing shipments once they have left your establishment.

Stocks owned by you that are held elsewhere, such as public or private warehouses not located at the processing location. These stocks should be reported for each location on Census Form M311H, "Animal and Vegetable Fats and Oils (Warehouse Stocks)." If you are not filing a Form M311H for such locations, please notify us and we will send you the necessary report forms.

#### 5. Special instructions

##### a. Animal fat renderers and consumers

Production — Report lard, edible tallow, inedible tallow, yellow grease, other grease, feather meal, meat and meat and bone meal, dry rendered tankage, poultry fat, poultry by-product meal, and all other products rendered during the month.

Consumption — Report all lard, edible tallow, inedible tallow, yellow grease, and other grease consumed in end products during the month. Production of end products, i.e., baking or frying fats and fatty acids,

# CURRENT INDUSTRIAL REPORTS SERIES

M311N

## DEFINITIONS AND SPECIAL INSTRUCTIONS — Continued

### 5. Special instructions — Continued

must also be reported. For example, if you render edible tallow and refine it into shortening you must report:

- Edible tallow production, item code 7200
- Edible tallow consumed in shortening, item code 7241
- Baking or frying fats (shortening), 100% animal fats or blends, production, item code 8200.

Note: Edible tallow, inedible tallow, yellow grease, and other grease producers who ship their product directly to livestock and poultry feed mixers in the U.S. must also report this as consumption (End use 23).

Stocks — Report quantities of rendered products and end products stored at your facility at the end of the month.

#### Include

- Rendered and refined lard
- Rendered and refined tallow and grease

Stocks and consumption of edible and inedible animal stearin, as well as edible and inedible hydrogenated animal fats, should be reported as stocks and consumption of the basic animal fat from which they originated.

#### Special definitions for renderers

Meat meal and meat and bone meal is the finely ground, dry rendered residue from mammal tissues exclusive of hair, hoof, horn, hide trimmings, blood meal, manure, and stomach contents, except in such traces as might occur unavoidably in good factory practice.

Feather meal (hydrolyzed poultry feathers) is the product resulting from the treatment under pressure of clean, undecomposed feathers from slaughtered poultry. Poultry by-products meal consists of the ground dry rendered or wet rendered clean parts of the carcass of slaughtered poultry, such as heads, feet, undeveloped eggs, and intestines, exclusive of feathers.

All other products includes blood meal. Blood meal is ground and/or screened dry blood.

#### b. Vegetable oil refiners

Production — Report the quantities of once-refined oil produced during the month.

#### Do not report

Production of crude oil — These figures should be reported on Census Form M311J.

Consumption — Report the quantities of crude oil consumed in the once-refining process.

#### Consistency check:

The quantity of crude oil consumed in refining should be approximately equal to the quantity of refined oil produced (less an allowance for refining loss).

The quantity of crude vegetable oils consumed in refining should not be reported as crude oil consumed in end products.

Stocks — Report quantities of crude and once-refined vegetable oil stored at your establishment on the last day of the month. Note: Continuous processors who already reported stocks of crude oil on the Census Form M311J should report only their refined oil stocks on this form.

#### c. Edible product producers

Production — Report the quantities of baking and frying fats (shortening), salad or cooking oil, and margarine produced during the month. See definitions below. Note: Do not report production of margarine oil.

Consumption — Report the quantities of once-refined vegetable oil or animal fats consumed in salad or cooking oil, baking or frying fats, margarine, and other edible products, during the month. Note: Consumption figures should be closely related to production, with the only difference being the refining loss.

Stocks — Report quantities of edible products stored at this establishment on the last day of the month. Note: Stocks and consumption of vegetable oil stearin should be reported as stocks and consumption of the basic refined oil from which it originated.

#### Special definitions for edible product producers

Salad or cooking oils — Products which meet all of the following conditions:

- Manufactured from vegetable oils
- Deodorized or winterized and deodorized
- Completely liquid at room temperature

#### Include

Clear oils sold to establishments making potato chips, bakery products, blended table oils, and salad dressings.

# CURRENT INDUSTRIAL REPORTS SERIES

M311N

DEFINITIONS AND SPECIAL INSTRUCTIONS — Continued

Special definitions for edible product producers —  
Continued

Oils refined and deodorized by mayonnaise and salad dressing producers for use in the plant. Do not report in "Other edible products."

Baking or frying fats (shortening) — Products which meet all of the following conditions:

Produced or sold entirely for baking or frying purposes

Manufactured from vegetable oils or meat fats or combinations thereof

Deodorized or hydrogenated and deodorized

Exhibit consistencies which may be fluid, plastic, or solid at room temperature

This category includes mono- and di-glycerides. It also includes hardened and deodorized lard, other hardened and deodorized fats or fractionated fats produced or sold entirely or primarily for baking or frying purposes.

Margarine — refers only to the finished product ready for table use or use by bakers.

Margarine oil — refers to the product from which margarine is made.

Stocks of margarine oils consumed in end products should be reported as the stocks and consumption of the oil or oils from which it originated.

d. Shipments to feed mixers

Producers of edible tallow, inedible tallow and grease and vegetable oils

Include

Direct shipments of edible tallow, inedible tallow and grease and vegetable oils to livestock and poultry feed mixers in the U.S.

Exclude

Shipments to fat reprocessors

e. Soap makers

Fats and oils used to make soap products should be reported in "Other inedible products." Soap makers who split fats as the first step in soap making should report both the consumption of fats and oils consumed entirely in soap and the production and stocks of glycerin.

Include

Bar, flake, granulated, and liquid soap

Exclude

Synthetic detergents, shampoos, metallic soaps, and wetting agents

f. Glycerin producers

Include both crude and refined glycerin from natural or synthetic sources. Natural glycerin is a product of soapmaking, fatty acid production, or any other fat splitting process. Synthetic glycerin is produced from sources other than fats and oils.

g. Producers of paints, varnish, and drying oils

Oils used to produce drying oils should be reported under "Other inedible products." Subcategory "Drying oils," applies if the oils are packaged for sale to paint contractors and individual users.

For paint and varnish (End use 52):

Include

Oils used to make paints, varnishes, enamels, lacquers, and similar products.

Exclude

Oils used to produce drying oils and sold as such

Oils sold for use in paint resin

Drying oils held in bulk storage or sold to manufacturers of paint, printing ink, and linoleum producers are considered intermediate products. Their stocks and consumption should be reported as stocks and consumption of the primary fat or oil from which they originated.

h. Producers of methyl esters (biodiesel)

Report the consumption of fats and oils used to produce biodiesel in "Consumed in methyl esters". Report the production of the crude glycerin byproduct of the transesterification process in item 8400. Stocks of the final product should not be reported as stocks of the feedstock.

i. Tall oil producers and consumers

If refined or distilled tall oil is used in the production of other products, its use should be reported according to the end uses listed in Reference List B of these instructions.

# CURRENT INDUSTRIAL REPORTS SERIES

M311N

DEFINITIONS AND SPECIAL INSTRUCTIONS —  
Continued

i. Tall oil producers and consumers — Continued

Type of process used

Acid refining process — Report quantities of crude or whole tall oil processed as consumed in "Refining" (End use 31).

Distillation or fractionation process — Report quantities of crude or whole tall oil processed as consumed in "Fatty acids" (End use 57).

In addition, report the production and stocks of the following:

Refined or distilled tall oil (containing less than 90% free fatty acids, excluding rosin acids)

Tall oil fatty acids (containing 90% or more free fatty acids, excluding rosin acids)

Exclude Other products such as rosin.

# CURRENT INDUSTRIAL REPORTS SERIES

## REFERENCE LIST A— FATS AND OILS

Combine the item codes from Reference Lists A and B so that the first two digits represent the oil or oil product and the last two digits represent the stocks or end use.

FORM M311N		
ANIMAL AND VEGETABLE FATS AND OILS (PRODUCTION, CONSUMPTION, AND STOCKS)		
Product code	Item code Prefix	Item description
		I. Primary fats and oils Report stocks, production (except crude vegetable oils, and consumption in making end products)
3112231100	02	Cottonseed, crude
3112234100	07	Cottonseed, once refined
3112221151	12	Soybean, crude (include degummed, blown, boiled, heat treated, and acid refined)
3112221231	15	Soybean, once-refined
311223H151	22	Linseed, raw and boiled
311223H102	24	Linseed, all other
311223H101	26	Coconut, crude
311223H102	28	Coconut, refined
311223H152	31	Tung oil
3112218111	34	Corn, crude
3112218125	36	Corn, once-refined
311223H101	39	Peanut, crude
311223H102	41	Peanut, once-refined
311223H166	44	Palm, crude
311223H102	45	Palm, refined
311223H167	47	Palm kernel, crude
311223H185	49	Palm kernel, refined
311223H168	56	Rapeseed (canola), crude
311223H186	57	Rapeseed (canola), refined
311223H101	51	Sunflower, crude
311223H102	53	Sunflower, once refined
311223H196	54	Castor, crude No. 1 and No. 3 (include chemically dehydrated castor oil)
3116135271	59	Vegetable foots, raw and acidulated (100% basis)
311223H169	62	Safflower, crude
311223H187	64	Safflower, once refined
311611D131	71	Lard, including rendered pork fat (include lard stearin)

## REFERENCE LIST A — FATS AND OILS — Continued

Combine the item codes from Reference Lists A and B so that the first two digits represent the oil or oil product and the last two digits represent the stocks or end use.

FORM M311N		
ANIMAL AND VEGETABLE FATS AND OILS (PRODUCTION, CONSUMPTION, AND STOCKS)		
Product code	Item code Prefix	Item description
		I. Primary fats and oils — Continued
311611R131	72	Tallow, edible (including oleo stock and edible animal stearin)
3116132112	75	Tallow, inedible (including inedible animal stearin)
3116132132	89	Grease, yellow
3116132141	92	Grease, other (other than wool grease)
3116135111	93	Meat meal, and meat and bone meal, and dry rendered tankage
3116135271	94	Poultry fats
3116135281	95	Poultry by-products meal
3116135231	96	Feather meal
3116135291	98	All other products including blood meal and raw products for pet food
3117124415	77	Fish oil (except cod or liver) and marine mammal oil (except sperm) include refined and hydrogenated
3251910125	86	Tall oil, crude (report product also)
3251910235	87	Tall oil, refined or distilled (containing less than 90% free fatty acids not including rosin acids)
311223H195	68	All other primary fats and oils (report consumption only — Enter a single figure but list the primary fats and oils such babassu, oiticica, etc.)
		II. Fats and oils products — (Report only stocks and production)
3112252811	81	Baking or frying fats (shortening), 100% vegetable oil
3112252821	82	Baking or frying fats (shortening), 100% animal fat or blends of vegetable oil and animal fat
3112254100	83	Margarine
325611A111	84	Glycerin, crude, 100% basis (report consumption in refining)
325611A131	85	Glycerin, refined (all grades 100% basis)
3251991191	88	Fatty acids (all types)
3112252845	16	Soybean cooking or salad oil (fully refined and deodorized oil)
3112252885	17	All other cooking or salad oil (fully refined and deodorized oil)

## REFERENCE LIST B

### INFORMATION TO BE REPORTED ON FATS AND OILS CONTAINED IN REFERENCE LIST A

FORM M311N

#### ANIMAL AND VEGETABLE FATS AND OILS (PRODUCTION, CONSUMPTION, AND STOCKS)

Item code suffix	Item description
10	Stocks, last day of the month (include winter stearin in stocks of refined cottonseed oil)
00	Production
XX	Total consumption
31	Consumed in alkali refining or similar processes
	Consumed in following end products:
41	Baking or frying fats (shortening)
42	Salad or cooking oils
43	Margarine
44	Other edible products (e.g., confectionery fats, mellorine fats, whipped topping. If you produce more than one of these products, name each but report a combined figure)
23	Direct shipments to livestock and poultry feed mixers in the U.S. (exclude shipments to fat reproducers)
51	Soap (do not include synthetic detergents, shampoos, metallic soap, wetting agents)
52	Paint and varnish, stain, enamel, and similar products (do not include drying oils sold as such)
53	Animal feeds
54	Methyl esters
55	Resins and plastics (including alkyd resins and plasticizers)
56	Lubricants and similar oils (specify kind: lubricant, grease, ocre oil, hydraulic brake fluid, metal work and treatment, cutting oil, dielectric oil)
57	Fatty acids (all types)
58	Inks (all types)
59	Other inedible products (if you produce more than one miscellaneous product, name each but report a combined figure)
	Examples of other inedible products:
	Cosmetic
	Drying oils (packaged for sale to painting contractors and individual users)
	Glazing and caulking compounds
	Hydrogenated castor oil
	Linoleum
	Pharmaceuticals
	Polishes and waxes
	Rubber and rubber products
	Sulfonated oils
	Sulfonation and the production of sebacic acid
	Synthetic organic detergents
	Toilet preparations including shampoos

**DUE DATE:** 10 Days After Receipt

OMB No. 0607-0476 Approval expires 09-30-08

**REPORT FOR MAY 2008**

The 8-digit number that appears above indicates that the Office of Management and Budget has approved this survey. If that number is not displayed, do not complete this form. YOUR RESPONSE IS REQUIRED BY LAW (Title 13, United States Code). By section 9 of the same law, YOUR REPORT IS CONFIDENTIAL. It may be seen only by persons sworn to uphold the confidentiality of Census Bureau information and may be used only for statistical purposes. The law also provides that copies retained in your files are immune from legal process.
