Electronic Signature

The form will not be "signed" in the sense of a traditional paper document. To sign this electronic form, the signatory must enter any alpha/numeric character(s) or combination thereof of **his or her choosing**, preceded and followed by the forward slash (/) symbol. The USPTO does **not** determine or pre-approve what the entry should be, but simply presumes that this specific entry has been adopted to serve the function of the signature. Most signatories simply enter their names between the two forward slashes, although acceptable "signatures" could include /john doe/; /jd/; or /123-4567/. **NOTE:** Only the individual applicant or owner, or someone with legal authority to bind a juristic applicant or registrant (e.g., a corporate officer or partner of a partnership) may sign this form. **Unless the registrant is in a pro se status at the time of the attorney's appearance**, the new attorney **CANNOT** sign a new power of attorney or revocation of the previous power of attorney on behalf of the applicant or registrant; however, once the applicant has designated an attorney, that attorney may sign this form, specifically to appoint another attorney(s) to prosecute the application. The "Validate Form" function allows you to run an automated check to ensure that all mandatory fields have been completed. You will receive an "error" message if you have not filled in one of the fields that are considered mandatory. For other fields that the USPTO believes are important, but not mandatory, you will receive a "warning" message if the field is left blank. This warning is a courtesy, if non-completion was merely an oversight. If you so choose, you may bypass that "warning" message and validate the form (however, you cannot by-pass an "error" message).
