Centers for Disease Control and Prevention

[60 Day-08-0488]

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. Alternatively, to obtain a copy of the data collection plans and instrument, call 404-639-5960 and send comments to Maryam I. Daneshvar, Acting CDC Reports Clearance Officer, 1600 Clifton Road, NE., MS-D74, Atlanta, Georgia 30333; comments may also be sent by e-mail to omb@cdc.gov.

Comments are invited on (a) whether the proposed collection of information

is necessary for the proper performance of the functions of the agency, including whether the information shall have a practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of information technology. Written comments should be received within 60 days of this notice.

Proposed Project

Restriction on Travel of Persons (OMB Control No. 0920-0488)—Reinstatement—National Center for Preparedness, Detection, and Control of Infectious Diseases (NCPDCID), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The Centers for Disease Control and Prevention is requesting OMB approval to reinstate without change the information collection request, "Restriction on Travel of Persons" (OMB Control No. 0920-0488). This information collection request expired on March 31, 2007.

CDC is authorized to collect this information under 42 CFR 70.5 (Certain communicable diseases; special requirements). This regulation requires

that any person who is in the communicable period for cholera, plague, smallpox, typhus, or yellow fever or having been exposed to any such disease is in the incubation period thereof, to apply for and receive a permit from the Surgeon General or his authorized representative in order to travel from one State or possession to another.

Control of disease transmission within the States is considered to be the province of state and local health authorities, with Federal assistance being sought by those authorities on a cooperative basis without application of Federal regulations. The regulations in 42 part 70 were developed to facilitate Federal action in the event of large outbreaks requiring a coordinated effort involving several states, or in the event of inadequate local control. While it is not known whether, or to what extent situations may arise in which these regulations would be invoked, contingency planning for domestic emergency preparedness is now commonplace. Should these situations arise, CDC will use the reporting and recordkeeping requirements contained in the regulations to carry out quarantine responsibilities as required by law.

There is no cost to respondents other than their time.

ESTIMATE OF ANNUALIZED BURDEN HOURS

Regulation	Respondent	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
42 CFR 70.3 Application to the State of Destination for a permit.	Traveler	2,000	1	15/60	500
	Attending physician	2,000	1	15/60	500
42 CFR 70.3 Copy of material submitted by applicant and permit issued by State health authority.	State health authority ...	8	250	6/60	200
42 CFR 70.4 Report by the master of a vessel or person in charge of conveyance of the incidence of a communicable disease occurring while in interstate travel.	Master of a vessel or person in charge of conveyance.	1,500	1	15/60	375

ESTIMATE OF ANNUALIZED BURDEN HOURS—Continued

Regulation	Respondent	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
42 CFR 70.4 Copy of material submitted or state or local health authority under this provision.	State health authority ...	20	75	6/60	150
42 CFR 70.5 Application for a permit to move from State to State while in the communicable period.	Traveler	3,750	1	15/60	937.5
	Attending physician	3,750	1	15/60	937.5
Total	3,600

Dated: February 13, 2008.

Maryam I. Daneshvar,

Reports Clearance Officer, Centers for Disease Control and Prevention.

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Notice of Public Meeting

AGENCY: The National Institute for Occupational Safety and Health (NIOSH) of the Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

SUMMARY: The National Institute for Occupational Safety and Health (NIOSH) of the Centers for Disease Control and Prevention (CDC) announces the following public meeting: Partnerships to Advance the National Occupational Research Agenda (NORA)".

Public Meeting Time and Date: 9 a.m.–3 p.m. EST, February 27, 2008.

Place: Patriots Plaza, 395 E Street SW., Conference Room 9000, Washington, DC 20201.

Purpose of Meeting: NORA has been structured to engage partners with each other and/or with NIOSH to advance NORA priorities. The NORA Liaison Committee continues to be an opportunity for representatives from organizations with national scope to learn about NORA progress and to suggest possible partnerships based on their organization's mission and contacts. This opportunity is now able to be structured as a public meeting via the Internet in order to attract participation by a larger number of organizations and to enhance the success of NORA. Some of the types of organizations of national scope that are especially encouraged to participate are

employers, unions, trade associations, labor associations, professional associations, and foundations. Others are welcome.

This meeting will include updates from NIOSH leadership on NORA as well as updates from approximately half of the Councils on their progress, priorities and implementation plans to date, including the Agriculture, Forestry and Fishing Sector; Healthcare and Social Assistance Sector; Transportation, Warehousing and Utilities Sector; Mining Sector and Oil and Gas Extraction Sub-Sector. After each update, there will be time to discuss partnership opportunities.

Status: The meeting is open to the public, limited only by the capacities of the conference call and conference room facilities. There is limited space available in the meeting room (capacity 34). Therefore, information to allow participation in the meeting through the internet (to see the slides) and a teleconference call (capacity 50) will be provided to registered participants. Participants are encouraged to consider attending by this method. Each participant is requested to register for the free meeting by sending an E-mail to noracoordinator@cdc.gov containing the participant's name, organization name, contact phone number on the day of the meeting, and preference for participation by web meeting (requirements include: Computer, internet connection and phone, preferably with "mute" capability) or in person. An E-mail confirming registration will include the details needed to participate in the web meeting. Non-U.S. citizens are encouraged to participate in the web meeting. Non-U.S. citizens registering to attend in person after February 15 will not have time to comply with security procedures.

Background: The National Occupational Research Agenda (NORA) is a partnership program to stimulate innovative research in occupational

safety and health leading to improved workplace practices. Unveiled in 1996, NORA has become a research framework for the nation. Diverse parties collaborate to identify the most critical issues in workplace safety and health. Partners then work together to develop goals and objectives for addressing those needs and to move the research results into practice. The NIOSH role is facilitator of the process. For more information about NORA, see <http://www.cdc.gov/niosh/nora/about.html>.

Since 2006, NORA has been structured by industrial sectors. Eight sector groups have been defined using the North American Industrial Classification System (NAICS). After receiving public input through the web and town hall meetings, NORA Sector Councils have been working to define sector-specific strategic plans for conducting research and moving the results into widespread practice. During 2008, most of these Councils will post draft strategic plans for public comment. For more information, see the link above and choose "Sector-based Approach," "NORA Sector Councils" and "Comment on Draft Sector Agendas" from the right-side menu.

Contact Person for Technical Information: Sidney C. Soderholm, Ph.D., NORA Coordinator, <http://www.noracoordinator@cdc.gov>, (202) 245-0665.

Dated: February 12, 2008.

James D. Seligman,

Chief Information Officer, Centers for Disease Control and Prevention.
