Integrated Intervention Strategies for Off-Campus Drinking

- Compliance Checks
- DUI Check Points
- Party Patrols
- Social Host “Response Cost” Ordinance
and.....
- Social Host Safe Party Campaign

Key Objective: Maximize Focus

- **Clear deadline**
- **Bounded time frame**
- **Limited number of components**
- **Highly (overly?) prescribed**
- **Modified after first year's experience**

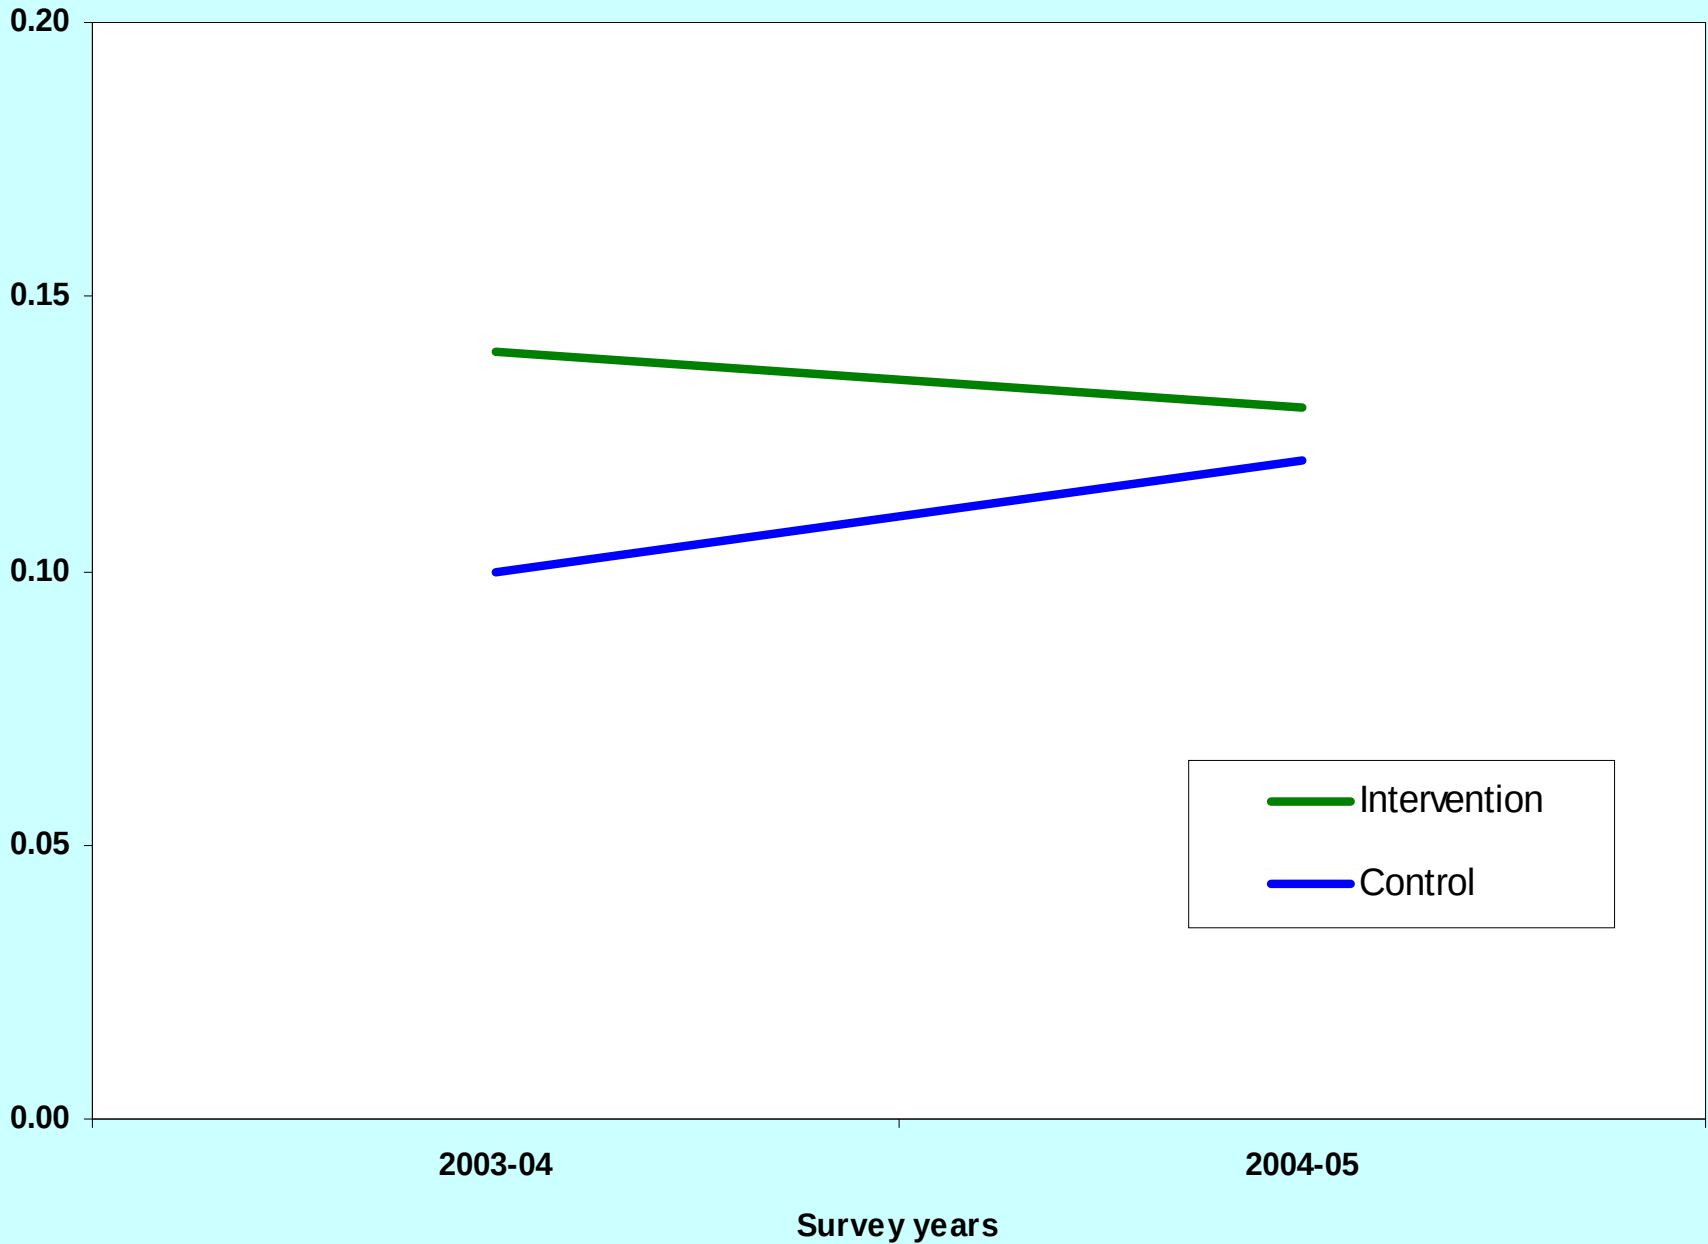

Outcomes

- Annual student surveys each November
- Likelihood of getting drunk at a given generic setting (e.g., Greek parties; residence halls) plus additional aggregate measure across all settings
- Two baseline years combined vs. two years post-intervention combined
- Controlling for individual-level variables and campus/community variables

DUI or RWDD Related to Off-Campus Party

In addition...

No Displacement

Practical Significance

- At each campus, 900 fewer students drinking to intoxication at off-campus parties and 600 fewer getting drunk at bars/restaurants during the fall semester at intervention schools relative to controls.
- Equivalent to 6,000 fewer incidents of intoxication at off-campus parties and 4,000 fewer incidents at bars & restaurants during the fall semester at Safer intervention schools relative to controls.

**...but there's much more to
implementation**

Barriers to Pursuing Environmental Management Strategies?

UC Davis Intervention Strategies for Off-Campus Parties

- Social Host Safe Party Campaign
- Joint Patrols and DUI Check Points
- Increased Visibility of Enforcement (Media)
- Good Neighbor Activities
- Educational and Promotional Materials

What Worked For Us

- Ask hard questions about the value of what you're currently doing
- Balance process and action
- Be a resource (or a matchmaker)
- Find and nurture great partners
- Build on the prior year
- Keep swinging
- “Everyone else is doing it”

What Was Difficult for Us (at least initially)

- Press conferences can be a lot of work
- Missed groundwork with key student groups
- Remembering that “all publicity is good”
- Balancing multi-site research plan with reality of our community

What is Difficult Now

- Fewer problems – people moving on to other issues
- Fighting the stereotypes; getting people to believe the data
- Keeping it fresh
