TITLE: NIH External Constituency Surveys - CSR

GENERIC CLEARANCE UNDER OMB# 0925-0474 EXP. DATE: 09-30-2011

ABSTRACT:

Two surveys are planned -- a Reviewer Survey and an Applicant Survey. The primary objective of these surveys is to assess peer reviewers' and grant applicants' experience with the peer review enhancements. The findings from the surveys will provide an important source of information for developing recommendations to further refine the enhanced peer review process. The information collected in these surveys is needed by NIH to obtain customer feedback about their satisfaction with the changes being implemented. The surveys are intended to garner specific information about reviewers' and applicants' most recent experience with peer review enhancements.
