* The E-Government Act of 2002 defines these terms by reference to the definition sections of Titles 40 and 44 of the United States Code. The following is a summary of those definitions:

•“Information Technology” means any equipment or interconnected system or subsystem of equipment, used in the automatic acquisition, storage, manipulation, management, movement, control, display, switching, interchange, transmission, or reception of data or information. See 40 U.S.C. § 11101(6).

•“Information System” means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information. See: 44. U.S.C. § 3502(8).

Note, for purposes of this form, there is no distinction made between national security systems or technologies/systems managed by contractors. All technologies/systems should be initially reviewed for potential privacy impact.

SPECIFIC QUESTIONS

1. Describe the project and its purpose:

The PSITEC program provides a technology clearinghouse to include guidance, recommendations, and technical assistance, to support Federal, State, local as well as private entities in obtaining, evaluating and implementing technologies. The Technology Clearinghouse provides an advanced information retrieval-and-analysis web-service that utilizes concept based searching to assist stakeholders in making informed technology decisions. It also improves productivity for knowledge-based activities such as completing grant applications as well as researching technology and services.

2. Status of Project:

This is a new development effort.

This an existing project.
