

JUSTIFICATION FOR THE NONSUBSTANTIAL CHANGE FOR FCC FORMS 314 AND 315

The Commission received OMB approval for FCC Form 303-S (OMB control number 3060-0110) on June 23, 2008 for a period of three years. The Commission inadvertently included language in the form that should not have been included. We have deleted the language from the form. We are now submitting the correct version of the form for OMB's review and approval. Please see the form under the instrument section in ROCIS. Nothing else with the information collection has changed since the collection was approved by OMB (supporting statement, burdens, rulemaking).
