Subject: Update PSI Survey Actions-Changes (31 JAN)

Importance: High

Attached to this email are 2 documents providing update to the Industrial Security Program about next steps for the April-May 2008 PSI projections survey of cleared contractors. There are some major changes to the Survey that we have noted in the documents.

PSC requests widest possible dissemination to ISP personnel of this update. A separate update will be posted on the DSS website in the next few days to notify Facility Security Officers of next steps for this important undertaking.

Please let me or Ryan Deloney in the PSC know if there are any questions. Additional updates will be provided as we continue to move toward the Survey deployment.

Thanks  
Valerie
