# **Part A. INTRODUCTION**

Good (morning/afternoon) . . ., my name is (Your name). I am calling for the Centers for Disease Control and Prevention concerning their study of hospital outpatient and emergency departments and hospital-based ambulatory surgery centers. You should have received a letter from Dr. Edward J. Sondik, the director of the National Center for Health Statistics, describing the study. (*Pause*) You've probably also received a letter from the Census Bureau, which is collecting the data for the study.

6. Did you receive the letter(s)?	1  Yes – SKIP to STATEMENT A
(If "No" or "DK," offer to send or deliver another copy)	2 🗌 No 3 🗌 Don't know
7a. Let me verify that I have the correct name and address for your hospital. Is the correct name (Read name from control card.)?	1 $\Box$ Yes 2 $\Box$ No – Enter correct name $\downarrow$

# Section II – INDUCTION INTERVIEW

### **Part A. INTRODUCTION**

I would like to begin with a brief review of the background for this study.

# **INSTRUCTIONS**

Provide the administrator or other hospital representative with a brief introduction to the study and a general overview of procedures.

Cover the following points -

- (1) NHAMCS is an extension of the National Ambulatory Medical Care Survey (NAMCS). The NAMCS collects data on visits to physicians in office-based practices
- (2) NAMCS and NHAMCS are sponsored by the National Center for Health Statistics of the Centers for Disease Control and Prevention
- (3) NAMCS and NHAMCS data are used extensively by health services planners, researchers and educators
- (4) Patient visits to hospital emergency and outpatient departments account for almost 200 million visits annually and 20 million visits to hospital-based amublatory surgery centers
- (5) Census Bureau is acting as the data collection agent for the study
- (6) The study is authorized by Title 42, U.S. Code, Section 242k
- (7) Participation is voluntary
- (8) All information, including the name of hospital, is held in strict confidence
- (9) NO patients' names or identifiers are collected
- (10) The study was approved by the NCHS Research Ethics Review Board
- (11) Data from the study will be used only in statistical summaries
- (12) NHAMCS covers hospital facilities on and off hospital grounds
- (13) NHAMCS covers care provided by or under the direct supervision of a physician
- (14) NHAMCS excludes office-based physicians (these are covered under the NAMCS)
- (15) NHAMCS excludes visits to clinics where only ancillary services are provided, e.g., X-ray, laboratories, and pharmacies, and where physician services are not provided, e.g., physical, speech, and occupational therapy, and dental and podiatry clinics.
- (16) For the first time, we are including ambulatory surgery visits in the survey
- (17) Only a 4-week data collection period
- (18) On average, sample of approximately 100 ED, 150 to 200 OPD, and 100 ASC visits per hospital

### SHOW PATIENT RECORD FORMS

- (19) Form takes only 6 minutes to complete
- (20) Forms to be completed by hospital staff at their convenience
- (21) Portion containing patient's name or other identifying information is removed before collecting

### Section III – EMERGENCY DEPARTMENT DESCRIPTION

### To develop the sampling plan, I would like to (collect/verify) information about this hospital's emergency department.

- (1) If the hospital has previously participated, simply verify that the emergency service area(s) (ESA) listed below is (are) still operating in the hospital by -
  - (a) crossing through any ESAs on the list that no longer exist or are no longer operational in that hospital.
  - (b) adding the name(s) of any new ESA(s) that have been created or have become operational in that hospital. For each new ESA added to the list, be sure to obtain the proper type to be entered in column (b).
  - (c) obtaining an estimate of visits for each ESA, covering the 4-week reporting period. Enter the estimate in column (c).
- (2) If the hospital has not previously participated, obtain a complete listing of all eligible ESAs along with their corresponding type and expected number of visits for each ESA during the 4-week reporting period. Record this information in columns (a), (b), and (c) below.

### **INSTRUCTION:**

• Only record generic ESA names in column (a) (e.g., pediatric emergency department). If the ESA has a formal/proper name, enter a generic name in (a) and record the Line No. and the formal/proper name on page 2 of the control card.

ED		ESA types include:

**INSTRUCTIONS** – Complete columns (d) and (e) after developing the sampling plan. See page 2 of the NHAMCS-124, Sampling and Information Booklet.

# **Section IV – OUTPATIENT DEPARTMENT DESCRIPTION**

### To develop the sampling plan, I would like to (collect/verify) more specific information about this hospital's outpatient department.

- (1) If the hospital has previously participated, simply verify that the clinic(s) listed on page 15 is (are) still operating in the hospital by -
  - (a) crossing through any clinics on the list which no longer exist or are no longer operational in that hospital.
  - (b) adding the names of any new clinics which have been created or have become operational in that hospital. For each new clinic added to the list, be sure to obtain the proper specialty code. Remember, include only ELIGIBLE clinics.
  - (c) obtaining an estimate of visits for each clinic, covering the 4-week period. Enter the estimate in column (c) of the attached listing.
  - (d) If this Outpatient Department has more than 5 clinics FAX the updated list to the NHAMCS-101, Questionnaire.
- (2) If the hospital has not previously participated or a clinic list is not attached to this 101, obtain a complete listing of all **eligible** outpatient clinics along with their corresponding specialty group code, and expected number of visits for each clinic during the 4-week reporting period. Record this information in columns (a), (b), and (d) on the next page.

FORM NHAMCS-101 (6-6-2008)

# Section III - EMERGENCY DEP

- **14e.** Does your ED have a physically separate observation or clinical decision unit?
  - f. Do ED physicians make decisions for paties in this observation or clinical descision uni
  - **g.** Are admitted ED patients ever "boarded" fo more than 2 hours in the ED or the observat unit while waiting for an inpatient bed?
  - **h.** If the ED is critically overloaded, are admitted ED patients ever "boarded" in inpatient hallways or in another space outside the ED?
  - i. What is the total number of hours that your hospital's ED was on ambulance diversion in 2008?
  - **j.** Is ambulance diversion actively managed on a regional level versus each hospital adopting diversion if and when it chooses?
  - **k.** Does your hospital continue to admit elective or scheduled surgery cases when the ED is on ambulance diversion?
  - I. As of last week, how many standard treatment spaces did your ED have?

Standard treatment spaces are beds or treatment spaces specifically designed for ED patients to receive care, including asthma chairs.

**M.** As of last week, how many others treatment spaces did your ED have?
 Other treatment spaces are other locations where patients might receive care in the ED, including

patients might receive care in the ED, including chairs, stretchers in hallways that may be used during busy times.

- n. In the last two years, has your ED increase the number of standard treatment spaces?
- **O.** In the last two years, has your ED's physic space been expanded?
- **p.** Do you have plans to expand your ED's physical space within the next two years?
