Notice – Public reporting burden for this collection of information is estimated to average 6 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a current valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing burden to: CDC/ATSDR Reports Clearance Officer, 1600 Clifton Road, MS D-74, Atlanta, GA 30333, ATTN: PRA (0920-0278).

	Monday,	through Sunday,	
PATIENT SIGN-IN SHEET	Record the name of every patient seen during the Reporting Period on a Sign-In Sheet maintained by your clinic. Record each patient in the order registered by the receptionist or seen by the provider. If two or more patients are seen during a single provider visit, the patient should be listed in the sequence registered or the sequence seen. It is important to record every patient visit including those not seen by the provider but attended to by the staff. Patients who visit the provider more than once during the reporting period should be recorded on the Sign-In Sheet at each visit.	patient seen during ned by your clinic. Fine receptionist or se seen during a single he sequence registe ord every patient visitended to by the state during the reportine at each visit.	the Reporting Period ecord each patient en by the provider. provider visit, the red or the sequence t including those not ff. PATIENT	Follow the Sampling Pattern below to determine for which visit(s) a Patient Record should be completed.	n below to determin completed.	e for which visit(s) a

B	Patient Record should be completed	ompleted.			
	START WITH	TAKE EVERY			
	The START WITH designates the FIRST PATIENT for whom a patient record should be completed. The TAKE EVERY designates	tes the FIRST Pampleted. The TA	ATIENT for v	vhom a designates	
	<ul> <li>every patient thereafter for whom a patient record should be</li> <li>completed. For example, for a Start With of 2 and Take Every of 3,</li> <li>a patient record will be completed for the second patient listed on</li> </ul>	whom a patient or a Start With of	record should 2 and Take	d be Every of 3,	
	the clinic Sign-In Sheet and every third patient listed thereafter	every third pati	ent listed the	reafter	
	extended each day from one Sign-In Sheet to another. For	ential that the Ta ne Sign-In Sheet	to another. F	imber is □	
	example, If your clinic uses a new Sign-In Sheet each day, then the Take Every Number has to be extended from the last patient	s a new Sign-In S	Sheet each d	lay, then st patient	
	visit selected on Monday to the new list on Tuesday. If a single Sign-In Sheet is used the entire reporting period, then the Take	the new list on ntire reporting p	Tuesday. If a eriod, then the	a single ne Take	
	Livery simply needs to be extended as new patient names are added to the list.	extended as new	patient name	es are	

## Please refer to the NHAMCS-123 Instruction Book for more detailed information on the sampling pattern. DEFINITIONS For purposes of this study:

1. An *ambulatory patient* is an individual presenting for personal health services, not currently admitted to any health care institution on the premises. *Include* patients the physician sees; and patients the physician does not see but who receive care from a physician assistant, nurse, nurse practitioner, etc. *Exclude* persons who visit only for administrative reasons, such as to complete an insurance form; patients who do not seek care or services (e.g., pick up a prescription or leave a specimen); persons currently admitted as inpatients to the hospital (*nursing home patients should be included*, *however*); and telephone contacts with patients.

2. A *visit* is a direct, personal exchange between an ambulatory patient and a physician or hospital staff member under a physician's supervision for the purpose of seeking care and rendering personal health services.

DISPOSITION

As each Patient Record is completed, place the combined form (Patient Log and Patient Record) in the pocket of the kit. At the end of each day scan all forms to be sure they are properly completed, verify that the total number of completed Patient Records equals the number appearing on the last completed Patient Record. Check pages of the Patient Log against other record(s) (e.g., appointment book, billing records) to assure that every patient visit was recorded on the Patient Log. At the end of the period, detach patient's name, place all Patient Records and all unused materials in the postage paid envelope provided and mail to the interviewer. (DO NOTRETURN THE DETACHED PAGES OF THE PATIENT RECORD THAT CONTAIN THE PATIENT'S NAME).
