As a participant in iCLIC, you will be asked to complete up to four different questionnaires about your diet and daily activities over the past 24-hours and provide other information about your overall lifestyle, health history, and diet.

The questionnaires you will be asked to complete may include:

ACT-24 - Activities Completed by Time in 24 hours
ASA24 - Automated Self-Administered 24-hour Dietary Recall
DHQ - Diet History Questionnaire
LHQ - Lifestyle and Health Questionnaire

To begin the enrollment process for iCLIC, please enter your Special Study Code, printed on your study invitation letter, in the box below and click the "Next" button.

Please indicate that you have read the consent statement and whether you would like to participate in the Study by clicking one of the buttons below the consent statement. Your participation is completely voluntary.

The NIH-AARP Comprehensive Lifestyle Interview by Computer Study
Consent Form

Full Study Title: The NIH-AARP Comprehensive Lifestyle Interview by Computer Study

Conducted by: United States National Cancer Institute, Division of Cancer Epidemiology and Genetics, Nutritional Epidemiology Branch

Principle Investigator: Arthur Schatzkin, M.D., Dr. PH

Funded by: United States National Cancer Institute

Do you consent to participate in the CLIC Study as detailed above?

To print the consent statement, [click here](#).

Statement of confidentiality:
Collection of this information is authorized by The Public Health Act, Section 412 (42 USC 205 a-1). Rights of study participants are protected by The Privacy Act of 1974. Participation is voluntary, and there are no penalties for not participating or withdrawing from the study at any time. Refusal to participate will not affect your benefits in any way. The information collected in this study will be held in professional confidence. Names and other identities will be separated from information provided and will not appear in any report of this study. Information provided will be combined for all study participants and reported as statistical summaries.

Notification to Respondent of Estimated Burden:
Public reporting burden for this collection of information is estimated to average between 90 and 150 minutes per response depending on the questionnaire assignment. This burden includes the time for reviewing
