The difference in your U.S. Social Security benefit computed under the modified formula, rather than the regular benefit formula, cannot be greater than one-half the amount of the pension or annuity you received in the first month you are entitled to both the pension or annuity and the U.S. Social Security benefit.

The information you provide will be used to determine the effect of your pension on your Social Security benefits. Your response is voluntary. However, failure to provide the requested information may prevent an accurate and timely decision on any claim filed, or could result in the loss of benefits.

We rarely use the information provided on this form for any purpose other than for determining the amount of the Social Security benefit you are entitled to receive. However, in accordance with 5 U.S.C. § 552a(b) of the Privacy Act, we may disclose the information provided on this form (1) to enable a third party or an agency to assist Social Security in establishing rights to Social Security benefits and/or coverage; (2) to make determinations for eligibility in similar health and income maintenance programs at the Federal, state and local level; (3) to comply with Federal laws requiring the disclosure of the information from our records; and (4) to facilitate statistical research, audit or investigative activities necessary to assure the integrity of SSA programs.

SSA will substitute the following revised Paragraph #4 upon approval of the revisions:

U.S Social Security retirement or disability benefits may be determined using a different formula under the Windfall Elimination Provisions (WEP), when you also receive a pension based on employment or self-employment, (employment, meaning work) from a foreign pension not covered by U.S. Social Security. Social Security benefit amounts use only earnings covered under Social Security with a benefit formula that gives proportionately higher amounts to workers with low lifetime earnings. A worker with a substantial period of non-covered work during their lifetime appears to have lower lifetime earnings than they actually had. WEP reduces the primary insurance amount upon which benefits are based and affects all benefits paid on that record except survivors. The difference in U.S. Social Security benefits computed under WEP cannot be greater than one-half the amount of the non-covered pension received in the first month you are entitled to both the non-covered pension and the U.S. Social Security benefit.
