

Focused Question for Public Comment: EDFacts Data Linkages for Prepopulation of CSPR

The SY 2006-07 CSPR contained questions that were “Initially Pre-populated from EDFacts.” The “*Initial Prepopulation*” strategy allowed CSPR coordinators the flexibility to use either the data submitted through EDFacts or an alternative data source to respond to questions on the CSPR. An unintended consequence of this strategy was that states could provide the Department two different answers to the same question, one answer provided through EDFacts and a different response submitted by the state’s CSPR coordinator.

It is ED's intention and desire to move as many of those questions, which were "Initially prepopulated" in 2006-07 to full utilization of EDFacts Submissions for 2007-08. As a result, CSPR coordinators will only be able to amend responses to their state’s CSPR by working with their EDFacts coordinator to resubmit a file through EDFacts. The Department plans to move cautiously towards this new strategy by carefully reviewing each state’s EdFacts transition agreement to ensure that all states will continue to have the capacity to submit their CSPR to the Department in a timely manner and with complete and accurate information.

Since the Transition Agreements covering data on the 2007-08 school year have not been finalized, the Department has not had the opportunity to determine which questions on the 2007-08 CSPR will be exclusively pre-populated by data submitted through EDFacts. In order to not delay the publication of the SY 2007-08 CSPR for public comment, we have set questions, which were initially prepopulated in 2006-07 back to "Manual Entry" for this 2007-08 CSPR package.

The Department is soliciting public comment from the states on the viability of moving any or all of the following questions, which were initially pre-populated in 2006-07 to exclusive pre-population for 2007-08 or 2008-09.
