

## **Teacher Quality Enhancement Program Title II, Higher Education Act**

### **Verification of Teaching Obligation**

The individual identified on page two is a new teacher employed by your school district. He or she received a scholarship provided under the Teacher Quality Enhancement Program to attend a teacher preparation program. As a condition of that scholarship, within six months of completing the program, the individual must begin teaching in a high-need school, as that term is defined in Section II, Part C of this form. The individual must continue teaching in a high-need school for a period equivalent to the length of time for which he or she received the scholarship. The U. S. Department of Education needs the information identified in this document so that it can confirm that the individual has fulfilled this service obligation.

For Parts I and II, we ask that you furnish this information by October 1 for individuals who begin teaching at the beginning of the school year, and within seven days of receipt for individuals who begin teaching at other times. The Department needs to obtain the information only once during the school year.

For Section III, we ask that you furnish the information on the teacher's regular school-year employment in your school district (Parts A1 and A2 and Part B) within seven days of the end of the school year. If the individual teaches during the summer (or intersession period if the school district operates a year-round program) in a high-need school, we ask that you furnish the information in Part A3 within seven days of the end of the summer session. Please also include any changes in the name, address, telephone number, fax number, or e-mail address of the school district's reporting official that was previously provided in Section I.
