NON-COMMERCIAL PERMIT AND PREORTING REQUIREMENTS IN THE MAIN
HAWAIIAN ISLANDS BOTTOMFISH FISHERY
OMB CONTROL NO. 0648-0577

JUSTIFICATION TO CHANGE THE MAIN HAWAIIAN ISLANDS NON-
COMMERCIAL BOTTOMFISH LOGBOOK FORM AND INSTRUCTIONS

The Pacific Islands Fisheries Science Center has submitted changes to the main Hawaiian Islands Non-Commercial Bottomfish Logbook Form and Instructions. The orientation of the form was made landscape instead of portrait in order to make it easier for the fishermen to complete the forms. In the logbook, when referencing the word "number," the abbreviation was changed from "No." to "Num." in order to avoid confusion. The species list was updated to include the relevant species for Hawaiian waters. In the instructions, the last point (number 13) refers to the return of the logbook to the Fisheries Science Center, and was reformatted into a box to make it stand out more for the reader.

No new data are being required as a result of these minor changes.
