Dear :

We appreciate your willingness to participate in a group discussion about the SSI/SSDI Outreach, Access and Recovery (SOAR) initiative in your state. The goal of the discussion is to learn what you and other individuals who have participated in the SOAR training thought of the training and whether and how you are using the skills taught in the training. We also hope to discuss your thoughts about whether and how the training has been useful in helping individuals who are homeless obtain SSI/SSDI benefits and if not, why not.

The group discussion will be held at ROOM LOCATION at TIME. It will last about 90 minutes.

We greatly appreciate your participation in the discussion. The information you provide will help us identify those elements of the training that were useful as well as ways to improve the SOAR training.

Please feel free to contact me at 202-484-5266 or jkauff@mathematica-mpr.com if you have any questions or concerns or if you are unable to attend the group discussion at the scheduled date and time.

Thank you again for your contribution to this important effort!

Sincerely,

An Affirmative Action/Equal Opportunity Employer
