

MEMORANDUM

DATE: September 3, 2008

TO: Office of Management and Budget

THROUGH: Reports Clearance Officer, DHHS

FROM: NIH Project Clearance Officer

SUBJECT: Nonsubstantive Change Request for: *The Effectiveness of the NIH Curriculum Supplements Programs* (OMB #0925-0551)

The purpose of this memo is to request that *The Effectiveness of the NIH Curriculum Supplements Programs* be changed to indicate that it is a generic submission. OMB approval was received on November 3, 2005 (OMB #0925-0551). The package has previously been recognized as generic and this change does not affect burden hours. No surveys have been conducted to date. We are, therefore, requesting that these changes be considered under the Nonsubstantive Change Request procedure.

Marilyn Tuttleman, M.S.
