1. Who must report?

- Each producer operating an establishment that produces any pesticides, active ingredients, or devices must submit reports.
 - **“Producer”** means the person who manufactures, prepares, compounds, propagates, or processes any pesticide or device or active ingredient used in producing a pesticide. (FIFRA §2)
 - **“Producer”** also means any person, as defined by the Act, “who produces any pesticide, active ingredient, or device (including packaging, repackaging, labeling and relabeling).” (40 CFR §167.3)
 - **“Produce”** means to manufacture, prepare, compound, propagate, or process any pesticide or device or active ingredient used in producing a pesticide. (FIFRA §2)
 - **“Produce”** also means to “manufacture, prepare, propagate, compound or process any pesticide, including any pesticide product pursuant to Section 5 of the Act, any active ingredient or device, or to package, repack, label, relabel, or otherwise change the container of any pesticide or device.” (40 CFR §167.3)
 - **“Establishment”** means any site where a pesticidal product, active ingredient, or device is produced. Establishment also includes sites which are independently owned or operated regardless of whether such site is domestic and producing a pesticidal product for export only or whether the site is foreign and producing a pesticidal product for import into the United States. (40 CFR §167.3)
- Products also requiring reporting include, but are not limited to, the following: unregistered pesticides, Special Local Need products under FIFRA §24(c), ozone or ultraviolet light producing devices for disinfecting, and other devices.
- Establishments that export from or import into the United States any pesticides, active ingredients, or devices must report to the Agency. (FIFRA §17)
- Establishments with Zero Production or Distribution in 2007. (See #2 below for details)
- Closed Establishments (Out of business or ceased production). (See #4 below for details)

2. What must be reported?

- Each producer operating an establishment must submit the following information for each product produced at the establishment:
 - Types and amounts produced in the past calendar year.
 - Types and amounts sold or distributed in the past calendar year, regardless of when the product was produced.
 - An estimate of the amount expected to be produced in the current calendar year.

 - If your establishment did not produce or distribute products subject to this report in 2007, **complete Blocks 1-19**, and check (✓) the Box in Block 15 where it states “Did Not Produce or Distribute.” **Sign and date the report in Blocks 18 and 19; it is now complete. Submit the report as directed on Pages 7 and 8.**
- **DO NOT REPORT:**

 - Products shipped from your supplier directly to your customer.
 - Any products for which Blocks 28, 29 and 30 are zero.
 - Custom-blended products (See Common Questions and Answers - Question 8).
 - Pesticides that are applied by your establishment’s staff.
 - Returned inventory or carryover product from a previous year.

3. When to report:

- **Reports are due: On or before March 1, 2008, even if there has been no production.**
- **Initial Reports:** Section 7 of FIFRA requires all registered establishments to submit an initial report to the U.S. EPA **30 days** after receipt of notification of establishment registration. Failure to file the initial report is an unlawful act and may result in termination of the establishment’s registration.

4. Closed Establishments (Out of business or ceased production).

- Enter all production and distribution information for 2007.
- Include a letter on company letterhead with the report stating the establishment is out of business or has ceased production of pesticides and request the establishment number be inactivated. Note: Your company will not receive this reporting form in future years.

5. Completing the Report:

- An original signature of a company official is required on the report in Block 18. Enter the date in Block 19.
- For all pages complete at the bottom: “This is Page _____ of _____.”
- Submit completed reports as directed on Pages 7 and 8. Please make copies of the reports for your records.

6. What if I fail to file this production report?

Failure to file an initial or annual production report is a violation of FIFRA, and may result in termination of the establishment’s registration, civil penalties up to \$6,500 per violation and/or criminal penalties.

“**Special Local Need (SLN)**” means an existing or imminent pest problem within a State for which the State lead agency, based upon satisfactory supporting information, has determined that an appropriate federally registered pesticide product is not sufficiently available. (See: EPA regulations at 40 CFR §162.151)
