The U.S. Department of Agriculture collects and publishes information on prices received by farmers for peanuts. USDA uses results from the weekly survey in the determination of the loan repayment rate for peanuts. Monthly and season average prices for peanuts, are used to compute counter-cyclical payments, parity prices, and the indexes of prices received by farmers. They are also used in estimating the value of production and National farm income.

Response to this survey is voluntary and not required by law. The information you provide is kept confidential and used only in combination with other reports to estimate State and National prices. Thank you.

INSTRUCTIONS:

Reported by:

- ► In item 1, report peanuts under CCC Loan that were acquired from producers by option contract for the week ending
- ▶ In item 2, report peanuts purchased from farmers for the week ending \_ that were **NOT** redeemed by the buyer using an option contract
- ▶ Report each type of peanut that was purchased from US farmers.

Please make corrections to name, address and Zip Code, if necessary.
