TRICHINAE HERD CERTIFICATION FEED MILL QUALITY ASSURANCE AFFIDAVIT

Purpose: The presence of trichinae encysted larvae in the meat of dead mammals is a source for exposing swine to the organism. The feed that swine consume in this program must not contain uncooked meat scraps, wildlife carcasses, or rodent carcasses to enable the certification of the site. This affidavit is intended to lead the discussion between the producer and the mill manager or quality assurance officer to ensure the quality and safety of the feed that is being delivered to the pork production site, especially as it relates to trichinae.

Objective: The trichinae auditor shall review this affidavit for completeness and indication of the quality assurances in place at the feed mill.

Name of production site :	Name of Producer:
Name of Feed Mill:	Address of Feed Mill:
Name and title of feed mill representative:	
The above named feed mill is adhering to the following Good Manufacturing Processes Guidelines:	

Within these guidelines the feed mill has implemented the following pest management practices:

The rodent control system for the feed mill is maintained internally/by a pest control professional (circle one)
