ATTACHMENT 17

Baseline and Follow-Up Survey to Determine Awareness Levels and Communications Preferences of Advocates Regarding Colorectal Cancer Clnical Trials

OMB #0925-0046-18a Exp. Date: 10/31/2006

National Cancer Institute Clinical Trials Awareness Survey with Advocacy Group Members/ Constituents

The National Cancer Institute (NCI) is working with the Colon Cancer Alliance (CCA) and C3: Colorectal Cancer Coalition to raise awareness about colorectal cancer clinical trials. As part of this effort, we are conducting this survey with advocacy group members and constituents to determine their current level of clinical trials knowledge and awareness. We will be conducting a follow-up survey in approximately one year to see if awareness levels have changed. To this end, please provide us with your e-mail address below so that we may send you this brief follow-up survey.

This survey should take approximately 5 minutes to complete, and your participation in this survey is completely voluntary. Your responses will be kept confidential and will not be disclosed to anyone outside NCI or its contractor, NOVA Research Company, except as otherwise required by law. Data will be provided to the NCI in aggregate form only, with any potentially identifying information removed. You may skip any questions that you prefer not to answer.

Thank you for taking the time to complete this survey.

- 1. What is your e-mail address?
- 2. With respect to your involvement with C3 or CCA, how would you primarily describe yourself?
 - a. Cancer patient, please specify:
 - i. Recently diagnosed and have not decided on treatment
 - ii. In treatment
 - iii. Completed treatment within the last year
 - b. Cancer survivor (1 year or more since treatment ended)
 - c. Caregiver/family member/friend of a cancer patient
 - d. Medical professional (please specify: ______
 - e. Other (please specify: _____
- 3. How familiar are you with clinical trials?
 - a. Very familiar
 - b. Somewhat familiar
 - c. Not at all familiar

We may be following-up with you via e-mail in approximately one year. If you have any questions about this survey, please contact Dan Eckstein at 301-986-1891 or deckstein@novaresearch.com.

OMB #0925-0046-18b Exp. Date: 10/31/2006

National Cancer Institute Follow-up Clinical Trials Awareness Survey with Advocacy Group Members/ Constituents

For the past year, the National Cancer Institute (NCI) has worked with the Colon Cancer Alliance (CCA) and C3: Colorectal Cancer Coalition to raise awareness about colorectal cancer clinical trials. As part of this effort, we are conducting this survey with advocacy group members and constituents to see if our promotional efforts to increase awareness have made an impact.

Your participation in this survey is completely voluntary. Please be assured that your responses will be kept confidential and will not be disclosed to anyone outside NCI or its contractor, NOVA Research Company, except as otherwise required by law. Data will be provided to the NCI in aggregate form only, with any potentially identifying information removed. You may skip any questions that you prefer not to answer. This survey should take approximately 4 minutes to complete.

Thank you for taking the time to complete this survey.

- 1. With respect to your involvement with C3 or CCA, how would you primarily describe yourself?
 - a. Cancer patient, please specify:
 - i. Recently diagnosed and have not decided on treatment
 - ii. In treatment
 - iii. Completed treatment within the last year
 - b. Cancer survivor (1 year or more since treatment ended)
 - c. Caregiver/family member/friend of a cancer patient
 - d. Medical professional (please specify: ______
 - e. Other (please specify: ______
 - 2. How familiar are you with clinical trials?
 - a. Very familiar
 - b. Somewhat familiar
 - c. Not at all familiar
 - 3. Have you heard of any of these NCI Colorectal Cancer clinical trials? (Select all that apply)
 - a. Cetuximab and/or Bevacizumab Combined With Combination Chemotherapy in <u>Treating Patients With Locally Advanced or Metastatic Colorectal Cancer</u> (Study # C80405)
 - b. Bevacizumab and Oxaliplatin Combined With Irinotecan or Leucovorin and Fluorouracil in Treating Patients With Metastatic or Recurrent Colorectal Cancer (Study # E4203)

- c. Oxaliplatin, Leucovorin, and Fluorouracil With or Without Bevacizumab in Treating Patients Who Have Undergone Surgery for Stage II Colon Cancer (Study # E5202)
- d. Combination Chemotherapy With or Without Bevacizumab in Treating Patients Who Have Undergone Surgery for Stage II or Stage III Rectal Cancer (Study # E5204)
- e. Radiation Therapy and Either Capecitabine or Fluorouracil With or Without
 Oxaliplatin Before Surgery in Treating Patients With Resectable Rectal Cancer
