[IF STUDENT QUOTA NOT FILLED CONTINUE, ELSE GO TO CLOSING STATEMENT]

Q24T. Thank you very much for your time. As I mentioned at the beginning of the survey, our study requires that we interview parents and teenage children. Now that we have completed the parent interview, we would like to ask the same series of questions to the oldest teenager in the household, who was in high school last year. The interviews do not need to be conducted at the same time; we can make arrangements to call back and complete an interview with your teenager later, but it would be convenient to complete that interview now. Can we go ahead with that interview now?

- 01 *Continue*
- 02 *Request callback*
- 99 *Refused* [Terminate]

Q25. How old is your oldest teenager who was in high school last year?

- 1 *Enter age* [Range=13-19]
- 99 *Refused* [Terminate]

{IF oldest teenager is 18 or 19:}

Q26. That is the person I would like to speak with. Is that person available?

- 01 *Yes* [go to KIDINTRO]
- 02 *No* [Schedule callback]
- 99 *Refused* [Terminate]

{If oldest teenager is between 13 and 17:}

Q27. Since your oldest teenager is younger than 18 years of age, I need to ask for permission to interview him/her. May I have your permission to interview the teenager?

- 01 *Yes*
- 02 *No* [Terminate]

Q28. (KIDINTRO) [WHEN THE CHILD IS ON THE PHONE: READ IF NECESSARY: HELLO, I'm calling for the U.S. Department of Education. My name is \_\_\_\_\_. We're gathering information on high school age students and their preparations for attending college, and I'd like to ask you some questions. Your responses can help improve programs that make it possible for more people to go to college.

- 01 *Child available* [Go to Q27T]
- 02 *Child not available, schedule a call back*
- 99 *Refused* [Terminate]

SQ28T. I won't ask for your name, address or other personal information that can identify you. Your participation is by choice and you may decline to participate at all. You don't have to answer any question you don't want to, and you can end the interview at any time. The interview takes approximately 9 minutes and any information you give us will be confidential. The interview may be monitored for quality assurance purposes. If you have any questions about this survey, I will provide a telephone number for you to call to get more information about the study or your rights as a research participant. Would you like for me to give you those numbers now?
