

## **APPENDIX F: DEVELOPER SCREENING PROTOCOL**

### **Program Goals and Design**

- What is the main goal of your online offering?
- What is the scope of the offering (what grades, how many teachers involved), target population (age, income level, geographic area), **and** how many students are served?
- Do you have a written description of the initiative (If yes, please provide)?
- What content area does the online activity cover?
- Is the offering designed to replace classroom-based coursework or to supplement / enrich classroom activities?
- What is the instructional strategy employed by this offering? Is instruction synchronous or asynchronous?
- Is instruction purely online or is it a blend of online and face-to-face instruction?
- What does interaction between students look like (if any)?
- What are the technological requirements for this course?

### **Evidence of Outcomes**

- Have you had a formal evaluation done by an outside organization?
- Do you track any student outcomes associated with use of this online offering? If so, what indicators do you track and how?
- What results have you seen?
