

request a revised program description and a revised MOA, should they be necessary.

Results of EPA's Review. EPA completed its review of Ohio's application in the fall of 2007. EPA communicated the results of its review in April and November 2007 letters to ODA. The letters expressed concern regarding five provisions in ODA's standards for land application of manure, litter and process wastewater. The letters also asked ODA to clarify or revise 26 provisions of its legal authority or NPDES permitting requirements.

In a letter dated September 4, 2008, ODA's Director committed to pursue specified statutory and rule changes to address the issues identified by EPA. The Director's letter also included other proposed statutory and rule changes beyond the scope of the changes needed to resolve the issues raised by EPA. In letters dated September 22, 2008, ODA provided correct versions of certain proposed statutory and rule provisions that were not included with the September 4 letter. EPA believes that the former changes ODA has committed to pursue will resolve EPA's issues, and that the latter changes will not adversely affect ODA's authority to administer the NPDES program. All of ODA's proposed changes were included in the September 4 and 22 letters, and are available for public review as part of the official public record.

Status of EPA's CAFO Rule. EPA is in the process of revising portions of the NPDES permitting requirements and Effluent Limitations Guidelines and Standards (ELGs) for CAFOs. EPA is acting in response to the order issued by the U.S. Court of Appeals for the Second Circuit in *Waterkeeper Alliance et al. v. EPA*, 399 F.3d 486 (2nd Cir. 2005), vacating or remanding portions of the 2003 rule. Ohio may need to further revise its NPDES program to implement these federal revisions when they are finalized. EPA will provide Ohio the same time period from the promulgation date of the revised federal rule to change its legal authority that EPA provides to other states with approved NPDES programs. 40 CFR 123.62(e). This rule gives states one year where rule changes are needed and two years where statutory changes are needed to incorporate new federal regulations into state law. This future process is separate from the process described above regarding Ohio's request for ODA to administer the NPDES program for CAFOs and for storm water associated with construction of AFOs.

Public Comment on the Described Program. Today, EPA is requesting

comments on Ohio's request, and providing notice of a public hearing and comment period on EPA's proposal to approve Ohio's application in accordance with 40 CFR 123.62. EPA wants the citizens of Ohio to understand the State's application, and wants to encourage public participation in the decisionmaking process. Therefore, EPA requests that the public review ODA's proposed NPDES program for CAFOs and storm water associated with construction activity at AFOs, and provide any comments they feel are appropriate. EPA will consider all comments in its decision. EPA will either approve or disapprove the State's request after considering all comments it receives. EPA expects the adopted statutory and rule changes to be identical to those submitted with ODA's September 2008 letters.

Authority: This action is taken under the authority of section 402 of the Clean Water Act as amended, 33 U.S.C. 1342. I hereby provide public notice of the application by the State of Ohio for the Ohio Department of Agriculture to implement the NPDES program for CAFOs and storm water associated with construction activity at AFOs, in accordance with 40 CFR 123.62.

Dated: October 3, 2008.

Acting Regional Administrator, Region 5.
