AVERAGE ADJUSTED GROSS INCOME

The Farm Security and Rural Investment Act of 2002 included average adjusted gross income as a payment eligibility requirement. Any individual or entity requesting certain 2003 through 2007 program payments will be subject to this provision. Any individual or entity that is determined to have an average adjusted gross income, as defined, that is less than 75 percent from farming, ranching or forestry operations and that exceeds \$2.5 million will be ineligible for any covered benefit during the applicable year.

DEFINITIONS AND OTHER INFORMATION

Average Adjusted Gross Income means the average of the adjusted gross income or comparable measure of the individual or entity over the preceding 3 tax years. For instance, if 2003 program benefits are requested, the tax years for average adjusted gross income determination would be 2002, 2001 and 2000.

Entity means a corporation, joint stock company, association, limited partnership, charitable organization, or similar entity, including any such entity or organization participating in the operation as a partner in a general partnership, a participant in a joint venture, a grantor in a revocable trust, or as a participant in a similar entity, as determined by the Secretary.

The manner in which the Adjusted Gross Income can be determined for an entity can be found in the regulations at 7 CFR Part 1400.

Commensurate Reduction means that any covered benefit issued to an entity, general partnership, or joint venture shall be reduced by an amount that is commensurate with the direct or indirect ownership interest the entity, general partnership, or joint venture of each individual who does not comply with the adjusted gross revenue requirement.

Certification of Compliance means that an individual or entity shall provide either a certification by a certified public accountant that the average adjusted gross income does not exceed the requirement; or provide information and documentation regarding the adjusted gross income through other procedures established by the Secretary.

Income from farming, ranching or forestry means income derived from producing crops, livestock, or unfinished raw forestry products.

Special Rules for Certain Individual and Entities are applicable to those entities that are not required to file a tax return, and individuals and entities that did not have taxable income in one or more tax years used to determine the 3-year average. Please consult with personnel at your local FSA office or service center for more information.

EXAMPLES

Situation 1 - Joe Smith requests benefits from the Direct and Counter-Cyclical Payment Program and from a Conservation Reserve Program contract approved effective for 2003. Mr. Smith's average adjusted gross income exceeds \$2.5 million and was all from farming and livestock operations.

Determination - At least 75 percent of the average adjusted gross income was received from farming, ranching and forestry operations. Therefore, Mr. Smith complies with the adjusted gross income requirement and is eligible for the program benefits requested.

Situation 2 - Grace Jones is a share rent landowner and requests benefits from the Direct and Counter-Cyclical Payment Program on a contract with her tenant. Ms. Jones' average adjusted gross income was less than \$2.5 million and over 75 percent was from non-agricultural interests.

Determination - Less than 75 percent of the average adjusted gross income was from farming, ranching and forestry, but the amount was less than \$2.5 million. Therefore, Ms. Jones is eligible for the program benefits requested.

Situation 3 - William Davis is a share rent landowner and requests benefits from the Direct and Counter-Cyclical Payment Program on a contract with his tenant. Mr. Davis' average adjusted gross income was greater than \$2.5 million and over 75 percent was from non-agricultural sources.

Determination - Less than 75 percent of the average adjusted gross income was from farming, ranching and forestry, and exceeds \$2.5 million. Therefore, Mr. Davis is ineligible for the program benefits requested.

Situation 4 - Mark Johnson is a 25 percent stockholder in Johnson Farms, Inc. Johnson Farms requests benefits from the Direct and Counter-Cyclical Payment Program. The average adjusted gross income for Johnson Farms was all from farming and ranching. The average adjusted gross income for each of the stockholders was mostly from non-agricultural sources and the amounts were less than \$2.5 million with the exception of Mark.

Determination - Any program benefit issued to an entity, general partnership, or joint operation shall be reduced by an amount commensurate with the direct or indirect ownership interest of an individual or entity who has an average adjusted gross income in excess of \$2.5 million. Therefore, Johnson Farms is eligible for the benefits requested, but reduced by the 25 percent, which represents the interest held by Mark.
